Registration no. ARACIS

To: ARACIS COUNCIL

In accordance with the legal provisions in force and based on the *Guide for the regular external evaluation of doctoral schools* and on the *Guide for the regular external evaluation of university doctoral studies domains*, respectively, ”Alexandru Ioan Cuza” University’s Council of Administration decided to request the initiation of regular external evaluation procedures for doctoral studies for the following doctoral schools and for the following doctoral study domains:

No.	Doctoral school	Doctoral study domains	Person in charge (name, surname, e-mail, telephone)	No. of doctoral thesis advisors/ domain
1.	Doctoral School of Economics and Business Administration	1. Economics	Professor Andreea-Oana IACOBUȚĂ-MIHĂIȚĂ, PhD habil. andreea.iacobuta@uaic.ro , 0726-129580	5
		2.		
		3.		
		4.		
		5.		
		6.		
		...		

The CSUD (The Doctoral Studies Council) director is Professor Ionel Mangalagiu PhD, and the contact details are:

- Telephone: 0723 240075
- E-mail: ionelm@uaic.ro

We hereby acknowledge full awareness of the fees imposed by the *ARACIS Council Decision no. 2 of 28.01. 2021 regarding approval of fees for doctoral studies’ external evaluation.*

1. GENERAL INFORMATION

1.1. Presentation of the Doctoral School of Economics and Business Administration, "Alexandru Ioan Cuza" University, Iasi

1.1.1. DSEBA (Doctoral School of Economics and Business Administration) – General Information

"Alexandru Ioan Cuza" University of Iasi is the oldest higher education institution in Romania. Established on October 26, 1860 ([Annex 1](#)), shortly after the Romanian Principalities Union in 1859, the **Iasi University** marked the modern beginnings of national higher education. The first academic institution in the country, Iasi University became the core of intellectual forces from all Romanian provinces, thus enabling educational, cultural and scientific development at the national level. At present, "Alexandru Ioan Cuza" University of Iasi represents a strong academic community, which carries out its activities in university autonomy and academic democracy conditions.

"Alexandru Ioan Cuza" University IOSUD was established in May 2005 ([Annex 2](#)) by replacing IOD-UAIC, in accordance with legislation in force. In this context, on September 1st, 2005 the **Doctoral School of Economics and Business Administration** ([Annex 3](#)) was established although doctoral level education had been carried out for over three decades within the **Faculty of Economics and Business Administration**. At present, due to the 49 doctoral thesis advisors, 104 guidance commission members and 152 currently enrolled PhD students, SDEEA is an extremely active academic community. The PhD programs are supported by the effort and active involvement of professors and researchers within the four faculty departments: *Department of Accounting, Economic Informatics and Statistics, Department of Economics and International Relations, Department of Finance, Money and Public Administration, Department of Management, Marketing and Business Administration.*

1.1.2. DSEBA Structure

The Doctoral School of Economics and Business Administration is a separate department within the Faculty of Economics and Business Administration, with its own regulations and structure and comprises 9 doctoral study domains: *Cybernetics and Statistics, Accounting, Economics, International Economics and Business, Finance, Economic Informatics, Management, Marketing, and Administrative Sciences.*

DSEBA management is ensured by a Council (CSD), whose members are ([Annex 4](#)):

*Doctoral School of Economics and
Business Administration*

Economics

Director: Professor Adriana ZAIȚ, PhD, "Alexandru Ioan Cuza" University, Iasi

Members:

- ✚ Professor Daniela AGHEORGHIESEI, PhD, "Alexandru Ioan Cuza" University, Iasi
- ✚ Professor Mircea GEORGESCU, PhD, "Alexandru Ioan Cuza" University, Iasi
- ✚ Professor Ovidiu STOICA, PhD, "Alexandru Ioan Cuza" University, Iasi
- ✚ Professor Elio BORGONOV, PhD, Bocconi University, Milan, Italy
- ✚ Professor Lucian CROITORU, PhD, Bucharest University of Economic Studies
- ✚ PhD student Aurelia ILIEȘ, "Alexandru Ioan Cuza" University, Iasi
- ✚ PhD student Cristian TERZA, "Alexandru Ioan Cuza" University, Iasi

1.1.3. DSEBA Evolution

Since 2005, the Doctoral School of Economics and Business Administration has evolved at all levels (scientific, administrative, relational), particularly in terms of: strategic orientation, rich academic education offer (in terms of disciplines in the curriculum and teaching staff availability), high quality of guidance commissions' coordination and support, evaluation criteria for doctoral theses and PhD students' scientific evolution, relationship building with other research institutions and the economic environment.

A synthetic picture of the evolution of the number of PhD candidates and students is provided in the following table:

Tableno. 1.1. Available seats, applicants, PhD students enrolled within the Doctoral School of Economics and Business Administration (2011-2020)

Academic year	Available seats	Applicants	Enrolled PhD students
2011-2012	77 state budget, 35 paid tuition	69	51
2012 – 2013	55 state budget, 24 paid tuition	63	47
2013 – 2014	44 state budget, 25 paid tuition	42	36
2014-2015	31 state budget, 2 paid tuition	49	33
2015-2016	30 state budget, 5 paid tuition	38	32
2016-2017	26 state budget, 15 paid tuition	31	31
2017-2018	23 state budget, 15 paid tuition	47	39
2018-2019	25 state budget, 15 paid tuition	41	40
2019-2020	28 state budget, 15 paid tuition	44	42
2020-2021	25 state budget, 20 paid tuition	43	37

*Doctoral School of Economics and
Business Administration*

Economics

The latest DSEBA self-evaluation reports and the summary of the DSEBA Council’s report provide further details on this evolution ([Annex 5](#)).

1.1.4. Research mission

The institutional **mission** of the Doctoral School of Economics is to provide a friendly and, at the same time, *rigorous research environment and to enable PhD students’ professional and intellectual development as well as to contribute to society’s evolution*.

DSEBA’s **vision** is *to become an advanced research landmark in the academia, as well as in the social and economic environment, doctoral education, research and dissemination of results*.

As for its research mission, DSEBA aims to support and develop high quality doctoral researches by adopting and covering two perspectives: *methodologically rigorous and socially relevant*. Therefore, if we refer to the **relevance-rigor matrix**, in its scientific research and results, DSEBA aims to conduct doctoral research within the ”pragmatic science” sphere.

Table no. 1.2. The relevance-rigor matrix of research

		Methodological rigor	
		<i>Low</i>	<i>High</i>
Practical relevance	<i>High</i>	Popularist Science	Pragmatic Science
	<i>Low</i>	Puerile Science	Pedantic Science

1.1.5. Quality Certification Level

The Doctoral School of Economics and Business Administration follows the principles stated in the *European Charter for Researchers* and the *Code of Conduct for the Recruitment of Researchers*. Since April 10, 2014, the ”Alexandru Ioan Cuza” University IOSUD holds the **HR Excellence in Research** quality certificate.

1.1.6. Specific measures on quality management and professional ethics promotion implemented at the Doctoral School level

Besides acting in line with the ”Alexandru Ioan Cuza” University IOSUD’s quality management methodology and internal regulations, the Doctoral School of Economics and

*Doctoral School of Economics and
Business Administration*

Economics

Business Administration applies its own procedures aimed to improve the quality of the whole doctoral process, which include advice and counseling provided by the doctoral advisors' General Assembly regarding regulations' adjustments, feedback from PhD students as well as from DSEBA's partners outside the University, etc.

The DSEBA value system is founded on the "cardinal virtues", i.e.: *Prudence, Justice, Fortitude and Temperance* and on the research values in the *European Code of Conduct for Research Integrity*, acknowledged at the European level:

- + *Reliability;*
- + *Honesty;*
- + *Respect;*
- + *Accountability/Dependability.*

Besides the fact that DSEBA Regulations include special provisions on ethics ([Annex 6](#)), the Doctoral School of Economics and Business Administration has adopted and fully applies the authorship principles of the *Vancouver Convention of Joint Authorship* according to which a person is entitled to be co-author of an article only if he/she:

- + has significantly contributed to article conception or design, to gathering, analyzing or interpreting the data in the article;
- + has contributed to drafting or reviewing the article;
- + has verified the final version of the article;
- + has agreed to take on responsibility for all aspects related to the accuracy or integrity of the data provided in the article.

1.1.7. Human resources

There are currently 51 doctoral thesis advisors within the Doctoral School of Economics and Business Administration, activating in the following doctoral domains:

Table no. 1.3. Doctoral Thesis Advisors within DSEBA

51.	<i>Administrative Sciences</i>	Professor Mihaela TOFAN, PhD habil.	mtofan@uaic.ro

Doctoral thesis advisors aged over 70 no longer coordinate new PhD students but focus on finalizing the projects they are involved in. When they began to coordinate doctoral theses, no procedure granting affiliation to the Doctoral School was in place and therefore, no procedure for “unaffiliation” was required. However, these advisors can always be consulted in order to capitalize their valuable research and didactic experience.

1.1.8. DSEBA Research infrastructure

The Doctoral School of Economics and Business Administration headquarters is located in the R Building of “Alexandru Ioan Cuza” University of Iasi, Alexandru Lapusneanu Street, no. 14. Here, PhD students can use offices/ individual study rooms which provide free access to 10 All-In-One Lenovo desktops, laptops and other devices. Also, the same building hosts (particularly in a 50 seat-room and in two lecture rooms) DSEBA activities, i.e. lectures, seminars, workshops,

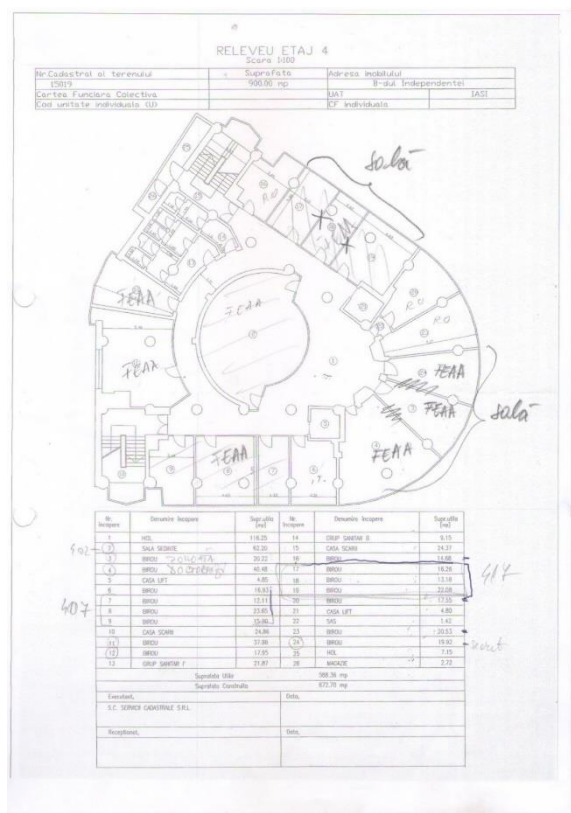

Doctoral School of Economics and Business Administration

Economics

conferences, public debates and doctoral theses defenses. All rooms are provided with modern equipment: smart table, laptops, sound systems, internet etc.

Room R411, i.e. PhD students' individual study room, was turned into a mini-library which adds to the other 2 main libraries of the Faculty.

The Library of the Faculty of Economics and Business Administration is located on Carol I Blv, No. 22A, B Building, 1st Floor, Room B401 and was founded in 2002 when the Faculty marked 40 years of existence. Nevertheless, the BCU's (University Central Library) Economic Sciences branch had functioned in the C Building since 1964 (due to the major contribution of great professors in the field) but its constant development in terms of number of students, sections, specializations, education forms, etc. required the establishment of a separate entity, able to concentrate specialized book funds in the main building of the Faculty of Economics and Business Administration. Due to the fact that the Faculty of Economics and Business Administration has its own library space, its architecture has become user-friendly, i.e. users do not waste any time, they can look for information on their own, independently (due to free access to book shelves), they can download and copy all necessary material.

FEAA (Faculty of Economics and Business Administration) library is specialized in economics but, given the numerous disciplines it relates to, it also gathers publications in socio-politics, history, geography, as well as a generous number of reference works (encyclopaediae, dictionaries, monographies, legislation). The collections comprise approximately 25.000 volumes (books and Romanian and foreign serial publications), subscriptions to paperback Romanian and foreign periodicals, to online documents, audio-visual documents, and Database subscriptions (InfoTrac-Custom Journals; Britannica on-line and Universalis on-line). In terms of logistics, the Library provides access to 100 computers, 3 photocopiers, 3 printers, an e-mail server, video supervision system, fire hazards and security systems, digital access and an anti-theft electronic system for each volume. Internet access is ensured by the University network and is; the Server Department of FEAA is in charge with e-security. The Data Base Department has created a library-

*Doctoral School of Economics and
Business Administration*

Economics

specific software used to process publications, which includes an online catalogue and a search engine.

Data on FEAA's libraries' capacity:

- + FEAA Library, B Building, 1st Floor: surface: 640 square metres, 240 seats;
- + FEAA Library, C Building, 3rd Floor: surface: 547 square metres, 165 seats;
- + Book fund: 24.663 titles, 62.027 volumes (books and periodicals).

Table no. 1.4. Distribution of FEAA library volumes according to domains

Economics

To the above educational resources, we may add the online databases, to which DSEBA community has subscription-based access granted through the project **ANELIS PLUS 2020 – Acces Național Electronic la Literatura Științifică pentru Susținerea Sistemului de Cercetare și Educație din România (National electronic access to scientific literature to support the educational and research system in Romania)** (co-funded by the Regional Development European Fund through the Competitiveness Operational Program 2014-2020).

The **general objective** of the **ANELIS PLUS 2020** project is *to increase Romania's CDI capacity in health and intelligent specializations domains*. Its aim is thus fully achieved. The project contributes to increasing Romanian research environment's involvement in international specialized research networks which are highly relevant for the further development of science and technology and which will, at the same time, contribute to enhancing the necessary informational infrastructure to support complex research projects. Moreover, the project contributes significantly to intensifying Romanian participation in European Union level research due to its objectives and expected results which will increase Romanian research visibility and will facilitate networking with international research structures.

Therefore, "Alexandru Ioan Cuza University" of Iasi is subscribed to: *Science Direct Freedom Collection, Scopus, SciFinder (CAS), MathSciNet*. DSEBA community also has access to the resources provided by the BCU ("Mihai Eminescu" University Central Library, Iasi) subscriptions:

The Faculty provides doctoral advisors and PhD students full support for research and mobility in order to ensure their professional development. The annual budget allocated for these activities is between 3% and 5% of DSEBA's revenue and fees. According with regulations in force and with the IOSUD-UAIC payment policy, payroll is performed on an hourly basis. The Doctoral School of Economics and Business Administration provides secretariat and technical support services to ensure the appropriate functioning of doctoral and habilitation activities.

1.1.9. Educational efficiency at DSEBA level

DSEBA's students' educational path is carefully guided by the staff involved in teaching activities during the first semester, the Secretariat and by the FEAA Database Department. The whole schooling process is managed through *eSims*, which is used to register all doctoral studies-related data, from admission, to results achieved during advanced university studies and individual research programs, and to doctoral thesis public defense, as well as information on the coordinator, guidance commission members, title of thesis, etc.

In reaching its objectives, the Doctoral School of Economics and Business Administration aims to go through some essential educational stages:

- providing advanced university studies able to widen PhD students' economic culture ; we approach this aim by relying on two major dimensions of the life long learning process:
 - theoretical and methodological (of science and scientific research);
 - pragmatic – with a stress on the practical aspects of economic sciences, in various forms: management, marketing, finance, accounting, economic informatics, statistics, international economic relations, etc.

*Doctoral School of Economics and
Business Administration**Economics*

- instructing and familiarizing PhD students on holding presentations and producing academic writing on highly interesting theoretical and practical topics; consequently, all lectures, seminars, scientific presentations, and progress reports analyses are devised and subordinated to this purpose.
- initiation and extension of cooperation with other doctoral schools in Romania and abroad in terms of:
 - doctoral management know-how;
 - scientific information;
 - publications;
 - organization of scientific sessions, workshops, symposiums, etc. to disseminate and capitalize on activities performed;
 - encouraging experience exchange and cooperation through experts' mobilities and visits;
 - national and international co-trustee;
 - logistics, etc.
- improvement of Romanian economic research quality by promoting highly interesting and relevant topics as well as by employing highly motivated, genuinely talented young researchers, with a proven record of success in the field.

The doctoral process also requires constant participation in scientific events so as to ensure that PhD students, advisors and guidance commissions' members receive feedback and disseminate their own research results. Through FEAA, DSEBA supports this process by organizing a number of such events and conferences, among which we may mention:

By participating since their first year of study within DSEBA in the conferences organized at the Faculty (FEAA) and University (UAIC) level, (either by presenting a paper or simply by attending), PhD students get the opportunity to discuss and receive useful feedback on their doctoral research as well as to compare their own research efforts with those of senior researchers. Doctoral research visibility is also achieved by participating in the 3MT competition organized within *Coimbra Group* as well as by publishing papers (co-authored by doctoral advisors and/ or by guidance commissions' members) in indexed journals.

*Doctoral School of Economics and
Business Administration*

Economics

1.2. Presentation of the "Economics" doctoral study domain

1.2.1. Objectives

The specific objectives of the **ECONOMICS doctoral study domain** are within the general objectives of the Doctoral School of Economics and Business Administration:

1. To provide advanced knowledge on the newest concepts and theories in the field of economics
2. To enable PhD students to acquire advanced research and doctoral research results dissemination skills
3. To stimulate multi- and inter-disciplinary intellectual debate and communication
4. To promote the integrity and responsibility principles in academic research
5. To promote diversity, cooperation and non-discrimination principles

1.2.2. Mission

The mission adopted by the members of the Doctoral School of Economics and Business Administration in the ECONOMICS doctoral study domain is subordinated to that of DSEBA, i.e. *to provide a rigorous and supportive research environment enabling PhD students' professional and intellectual development and to contribute the overall progress of society.*

Our vision is to become an advanced research landmark in the field of ECONOMICS for the social, economic and academic environment by offering high quality university education, at the doctoral level, as well, through the knowledge and values conveyed to and the abilities thus acquired by our students; these will further contribute to our graduates' personal and professional development as well as to the economic, social and philosophical progress of the institutions, structures and entities that they will work for in the future.

1.2.3. Curriculum

The DSEBA curriculum, including the one of the ECONOMICS doctoral study domain, is posted on the Doctoral School site (Portal), in the Documents section: <http://doctorat.fea.uaic.ro/documente>. It includes 4 compulsory disciplines and a list of optional disciplines, out of which PhD students have to choose between 2 and 4 (so as to complete the required number of credits) depending on their specialization ([Annex 7](#)).

Compulsory disciplines:

*Doctoral School of Economics and
Business Administration*

Economics

1. Scientific Research Methodology (with 3 distinct modules):

Epistemology

Scientific Research Methodology

Academic writing I

2. Research and Analysis Methods for Qualitative Data

3. Research and Analysis Methods for Quantitative Data

4. Academic ethics and integrity

Optional disciplines (modules in the 12 disciplines list below, total number of hours - 60):

1. *Technology and society in economy* (20 hours)

2. *Doctoral research sustainability* (20 hours)

3. *Categorical data analysis* (10 hours)

4. *Current research trends in accounting and financial analysis* (30 hours)

5. *Empirical banking* (20 hours)

6. *Banking economics* (20 hours)

7. *Advanced research in finance* (30 hours)

8. *Academic writing II* – specific elements for various doctoral study domains (30 hours)

9. *Doctoral research in management și marketing – quantitative branch* (30 hours)

10. *Doctoral research management și marketing – qualitative branch* (30 hours)

11. Independent modules: netnographic, social-media and new-media research (6 hours); *evidence based research* in social sciences (8 hours); branding, image, reputation, *relationship management* (6 hours); latent processes and variables in social researches (8 hours); PLS and SEM in economics and social sciences research (6 + 6 hours).

12. *International Economics and Business advanced research* (30 ore)

1.2.4. Doctoral advisors

There are currently 5 doctoral advisors in the ECONOMICS doctoral study domain within the Doctoral School of Economics and Business Administration:

Table no. 1.9. Doctoral thesis advisors in ECONOMICS

4	Professor Ion Pohoată , PhD	4189/09.08.1999 (Annex 11)	YES (Annex 15)	ionpohoata@yahoo.com
5	Professor Ion Ignat, PhD*	4222/11.07.1997 (Annex 11)	partially	ignation@uaic.ro

Note:* Professor Ion Ignat, PhD turned 70 years old in November 2017. He is an associate doctoral thesis advisor who, according to IOSUD and DSEBA regulations, is no longer involved in doctoral admission, coordination or teaching.

In the period under evaluation, Professor Victor Ploae, PhD also performed advisory activities in Economics but coordinates no PhD students at the moment.

1.2.5. Evolution of number of PhD students in the last 5 years

1.2.5.1. Doctoral study program admission within DSEBA

The admission contest is organized at the Doctoral School of Economics and Business Administration level, according to doctoral study domains; the number of seats for each domain is decided based on doctoral advisors' and students' performance as well as on each domain's popularity among potential candidates.

Table no. 1.10. DSEBA admission contest – total available seats (MEC scholarships, UAIC scholarship and state buget – no scholarship)

		<i>MG</i>	<i>MK</i>	<i>ST</i>	<i>EC</i>	EAI	<i>IE</i>	<i>F</i>	<i>C</i>	TOTAL

1.2.7. Research centers

The **Center for Research in Economics and Business Communication**, within "Alexandru Ioan Cuza" University of Iasi IOSUD – ECONOMICS doctoral study domain, is coordinated by professor Ion Pohoata, PhD. It functions within the Department of Economics and International Relations (DERI), Faculty of Economics and Business Administration (<http://www.feaa.uaic.ro/cercetare/centre/>) and its research is focused on the following *sub-domains*:

- Microeconomics;
- Economics of enterprise;
- Macroeconomics;
- Institutional economics;
- International economics;
- Business communication.

The aim of the Center for Research in Economics and Business Communication is to enhance scientific research activity in microeconomics, macroeconomics, institutional economics, international economics and business communication at both theoretical and practical levels.

Given the above mentioned aim, this Center of Research has the following main *objectives*:

- To support high quality scientific research;
- To stimulate the involvement of teams of master, PhD, and postgraduate students, as well as of teaching staff and other professionals in the field in research projects;
- To encourage dissemination of research activity results in order to increase visibility;

*Doctoral School of Economics and
Business Administration*

Economics

- To focus on research activities able to bring valuable results for the business environment and for decision and policy makers.

In order to reach the above objectives, the Center for Research in Economics and Business Communication considers *short, medium and long term strategies*:

Short term strategies are focused on the following aspects:

- Identifying research topics which are highly relevant for the Economics domain and which have an impact on the economic environment;
- Creating research teams comprising master and PhD students, as well as postgraduates;
- Attracting funds through research projects proposed within national and international competitions;
- Intensifying research activities in economic master programs.

Medium and long term strategies are focused on the following aspects:

- Constant update of research topics, in line with changes occurred in the economic environment;
- Stimulating PhD students and researchers to have scientific papers published in internationally recognized scientific publications and limitation of "scientific opportunism";
- Encouraging participation in international scientific events;
- Use of project funds to achieve further significant research results (publications and SSCI indexed quotations);
- Encouraging national and international partnerships meant to produce valuable inputs for developing the Center for Research in Economics and Business Communication members' research abilities.

The progress achieved by the members of the Department of Economics and International Relations in terms of scientific research **is supported from three directions**.

The first direction is focused on the previously presented activity of the *Center for Research in Economics and Business Communication*.

Secondly, the FEAA strategy to have teaching staff reunited on a weekly basis is enforced through the activities performed within the *Faculty's Scientific Seminar*. During this seminar, every member in each Faculty Department presents a research paper. In this way, this activity brings together teaching and research staff from all Faculty Departments.

Thirdly, the *ECONOMICS domain has its own research plan*. The main *scientific research topics* are:

- Human capital in new democracies;
- Economic development and its result's distribution;
- The role of the state in the economic development process;
- Austrian School of Economics;

*Doctoral School of Economics and
Business Administration*

Economics

- Economic cycle and markets' instability;
- Institutional quality and entrepreneurial development;
- Trends, challenges and perspectives in sustainable development;
- Economic and development growth models;
- Companies' business strategies.

The development of scientific research activity is essential to increase national and international acknowledgement of both research and teaching staff's activity results within the Department of Economics and International Relations. With this purpose, we propose the implementation of some *strategies meant to stimulate scientific research activity*. These are focused on:

Organizing scientific seminars within the Department of Economics and International Relations

During these seminars, teaching and research staff in the Department, as well as DSEBA students (in *Economics* and *International Economics and Business*) will have their research activity results presented. Moreover, professors from Romania and abroad will be invited to attend these seminars. The participation of DSEBA students in these seminars is compulsory.

Organizing an international conference at the Department level

This conference can be organized once every two years, in May. It could include two main sections: *Economics* and *International Business*. This conference could be attended by the Department's teaching and research staff, by the DSEBA students as well as by invited professors from Romania and abroad.

Setting the bases of students' scientific research competences as a premise for increasing doctoral studies' attractiveness

Students' scientific research abilities may be stimulated by:

- *Organizing student clubs within the study programs of the Department of Economics and International Relations*
- *Organizing student contests on challenging and interesting topics*

Increasing the level of funds for scientific research activities by using sources from national and international projects

Creating research teams at the Department level, comprising teaching and research staff, PhD students and postgraduates, in order to streamline drafting and proposing research projects.

We also aim to consolidate cooperation with teaching and research staff in the Economics departments of Universitaria Consortium so as to facilitate joint research projects proposals and implementation.

*Doctoral School of Economics and
Business Administration*

Economics

The activity of the Center for Research in Economics and Business Communication is inherent to the research strategy of "Alexandru Ioan Cuza" University of Iasi; its aim is to promote knowledge in the spirit of democratic values, academic freedom and openness to the international scientific community in the European cultural space by respecting national identity.

International conferences organized

In cooperation with Friedrich von Hayek Romania Institute and Institut de recherches économiques et fiscales, and under the auspices of the ECONOMICS domain, the international conference *Free Economy, Free Society* is organized annually. As a result of the partnership with Friedrich von Hayek Romania Institute and Austrian Economics Center, the international conference series *Free Market Road Show* (in 2017, <http://www.uaic.ro/event/free-market-road-show-2017/>; in 2018, <https://www.austriancenter.com/fmrs/>) hosted a number of very interesting debates.

In 2017 (15-17 June) and 2018 (7-10 June), two editions of the international conference Scientific Convergence and Interdisciplinarity in EU Environmental Research (SCIENVIR), to which PhD students in ECONOMICS also attended, were organized.

*Doctoral School of Economics and
Business Administration*

Economics

The Economics and Free Society translations collection

Coordinated by two members of the Department of Economics and International Relations, Faculty of Economics and Business Administration, i.e. Professor Vasile Isan, PhD and Professor Gabriel Mursa, PhD, a collection of translations of representative works in ECONOMICS has begun to be published by "Alexandru Ioan Cuza" University of Iasi Publishing House.

1.3. Internal Quality Assurance System at the Level of Doctoral Studies

1.3.1. Internal quality assurance system objectives and general structure

"Alexandru Ioan Cuza" University of Iasi assumes the institutional culture of quality as a means to achieve academic excellence in education and scientific research.

The main objective of the quality assurance system is to improve the system of organization and management of the University's resources in order to increase the efficiency of the teaching and scientific research process.

Structure of the quality management system

At central level, in "Alexandru Ioan Cuza" University of Iași, there is [Comisia pentru Managementul Calității](#) (CMC, *Commission of Quality Management*), which is organized and functions in agreement with stipulations in the National Education Law and Law no. 87/2006 for the approval of Government Emergency Ordinance no. 75/2005. The Commission reports to the University Board of Governors, is run by a Chair and operates on the basis of its own Regulations.

UAIC's Quality Management Commission has specific management system regulations and procedures to develop its own quality culture. The executive activities in the field of quality management are carried out by the members of the Quality Management Office. The Office supports the Quality Management Commission in the implementation of quality management by planning actions, drafting self-assessment reports and specific quality assurance documents, training staff on quality assurance, participating in the internal and external evaluation process.

In UAIC there is a program of policies centered on quality, the means to carry it out being presented in synthesis in [Codul de asigurare a calității](#) (Quality Assurance Code) and [Manualul calității](#) (Quality manual).

The process to control documents assimilated to the Quality Management System at University level, as well as the responsibilities arising from it, are regulated by:

- [Procedura privind elaborarea procedurii documentate](#) (Procedure on how to draw the documented procedure) –establishes how to initiate, develop, endorse and approve the content,

*Doctoral School of Economics and
Business Administration*

Economics

format, revision and archiving of any activity-based documented procedure used within the UAIC's quality management system and internal/managerial control system;

- [Procedura de sistem, privind inițierea, elaborarea, aprobarea, difuzarea, retragerea și, arhivarea informațiilor documentate \(cod, ghid, regulament, metodologie sau a altor documente asimilate Sistemului de management al calității\) din cadrul Universității „Alexandru Ioan Cuza” din Iași](#) (System procedure on initiating, drafting, approving, disseminating, withdrawing and archiving documented information (code, guide, regulation, methodology or other documents assimilated to the Quality Management System))– establishes the modalities and responsibilities for initiating, drafting, approving, disseminating, withdrawing and archiving codes, guidelines, regulations, methodologies and other documents assimilated to the Quality Management System at University level.

The Faculty of Economics and Business Administration has a Quality Management Subcommittee, which is subordinate to the central committee. The institutional practices and policies in the field of quality are adapted to the requirements specified in the Methodology on Quality Assurance, Provisional Operating Authorisation and Accreditation of Study Programs and Higher Education Institutions, drawn by ARACIS, in accordance with the provisions of Government Emergency Ordinance No. 75/2005 on Quality Assurance in Education and Law No. 87/2006, as amended..

Also, in the Faculty there is an operating [Comisia pentru evaluarea si asigurarea calității programelor de studii](#) (Commission for study program evaluation and quality assurance).

1.3.2. Quality assurance policies and definition of procedures, beneficiaries and their responsibilities

Evaluation and quality assurance policies are designed at University level through the Strategic Plan (SP) and the Operational Plan (OP). At the level of each faculty, Strategic and Operational Plans are developed, with indicators in line with UAIC's SP and OP.

In the Faculty of Economics and Business Administration there is a permanent concern for the quality assurance of the educational act and the effective functioning of quality assurance mechanisms in order to achieve the following objectives:

- to increase the faculty's capacity to provide higher qualifications adapted to the changing demands of the labor market;
- to continue to promote research programs of excellence;
- to increase international visibility;
- to strengthen innovation, cooperation and networking between faculties in the same field inside Romania and abroad, business and research centers;

*Doctoral School of Economics and
Business Administration*

Economics

- to increase the relevance of mathematical higher education for the labor market and the knowledge-based society through quality university degree programs;
- to expand learning opportunities in mathematics and computer science higher education.

1.3.3. Stakeholder participation in the quality assurance process

The periodic evaluation of study programs in terms of identified labour market needs and objectives, teaching-learning-assessment processes, material and human resources, concordance between stated learning outcomes and their assessment methods are grounded in the [Regulamentul privind inițierea, aprobarea, monitorizarea și evaluarea](#) (Regulation on the initiation, approval, monitoring and evaluation) of study programs approved by the University Senate, UAIC's Quality Assurance Code, other documents relevant in the evaluation process.

The Doctoral School of Economics and Business Administration (DSEBA) and the Faculty of Economics and Business Administration in general have concrete structures, strategies and procedures for the management and quality assurance of teaching, learning and research activities and for the development of a quality culture. The adopted structures, policies and strategies create the institutional framework for effective quality development and monitoring and for continuous improvement of quality standards. Through the analyses carried out in the Board of the Doctoral School of Economics and Business Administration, the Faculty Board, the Methodology Committee or other committees of the Faculty, the aim is to seek solutions to possible proposals/observations resulting from the monitoring of alumni opinions. These analyses result in the adaptation of teaching/learning methods, the introduction of concepts and technologies resulting from scientific research, a more active communication process with all actors involved in the educational process, etc.

In the process of monitoring student opinion, a questionnaire is used, applied at the end of each semester to students enrolled in undergraduate and master courses. Another tool for monitoring student satisfaction is the questionnaire applied by the university: [Cât de mulțumit ești de serviciile Universității?](#) (*How satisfied are you by the University services?*). It is launched annually to gauge student perceptions in a systematic way and to better understand what they want from the university. It is important for university representatives to know these aspects in order to improve activities involving interaction with students at faculty or library level, personal and professional development course offers, dormitory accommodation conditions, and to focus more on student needs.

As evidence of the involvement of a variety of stakeholders in the quality assurance process of doctoral research, we can detail a number of issues related to the DSEBA's relationship with the socio-economic environment. There are numerous analyses and evaluations of public policies as a result of the doctoral school's research, among which we can mention:

Economics

- *Analysis of Work-Related Migration Policies in Europe* (beneficiary: ITM Iași)– Dr. Cătălin Țacu;
- *Analysis and Prognosis of the Evolution of Suceava County Population* (beneficiary: Suceava City Hall)– Dr. Mihaela Seniuc ;
- *Regional Development via Dry-Port* (beneficiary: ADR Nord-Est)– Dr. Cezar Gabriel Ciortescu.

Companies have also benefited from process improvement analyses and projections through PhD research:

- *The Amelioration of Marketing Strategies for the Promotion of Romanian Wine* (beneficiary: Cotnari SA Iași)–Dr. Ștefan Matei;
- *Modeling Stock Management in the Farmaceutical Industry*(beneficiary: Ropharma Iași)– PhD cand. Alin Rădășanu;
- *Business Models for the IT Industry* (for the benefit of some companies in Iași)–PhD cand. Marius Alexa.

Most research in our fields is of an applied nature and focuses on the regional and Romanian socio-economic environment. Therefore, the collaborative relations of the doctoral school are strongly anchored in the socio-economic context.

DSEBA's research strategy is based on a strong social responsibility, all PhD students' research being offered free of charge to socio-economic entities by virtue of the major role that our University plays in the region.

At DSEBA level, there are a number of agreements and partnerships with the socio-economic sector to carry out interdisciplinary research, such as: Agreement with the Financial Supervisory Authority, the National Bank of Romania (NBR), the Romanian Commercial Bank (BCR) and the Romanian Development Bank.

1.3.4. Interaction between the quality assurance system and university management

[Biroul Managementul Calității \(BMC\)](#) (Quality Management Office) operates within "Alexandru Ioan Cuza" University of Iași, under the direct supervision of the Vice-Rectorate for MA programs, PhD studies, quality management and UAIC external campuses. BMC has an executive role in implementing UAIC strategies and policies in the field of quality management:

- it pursues the implementation of quality management in faculties/departments and in the university administration;
- it provides logistical and secretarial support to the University Quality Management Committee in the preparation of summaries of evaluation, audit and quality improvement actions;
- it centralizes the results of periodic measurements of student satisfaction with regard to the services offered at University level by the faculties/departments and administrative structures (admission, educational, social, documentation, administrative, secretarial, counseling services, etc.);
- it centralizes the results of regular measurements of employers' satisfaction concerning: the preparation of university graduates; ways of cooperating to adapt the curriculum to their requirements; ways of cooperating in the field of research; ways of representing them in decision-making bodies;
- it proposes solutions to increase the quality of university services, presenting them to the Quality Management Committee;
- it prepares the annual internal evaluation report on the quality of education, and other evaluation reports made available to external and internal evaluators;
- it monitors the implementation of the annual quality improvement plans at the level of the Faculty and University administrative structures based on the annual quality

*Doctoral School of Economics and
Business Administration*

Economics

improvement plans at University level, develops and proposes to the Quality Management Commission the annual quality improvement plan at University level to ensure that minimum accreditation standards, quality standards applied by other external evaluation bodies and performance levels required to achieve positions in international rankings are met and exceeded;

- it monitors the University's position in national and international rankings and carries out analyses to inform strategies to improve these ranks;
- it submits these analyses to the Commission for evaluation and quality management;
- it cooperates with the Romanian Agency for Quality Assurance in Higher Education (ARACIS), with other agencies and authorized bodies or similar institutions in the country and abroad, according to the law;
- it collects and transmits information from third parties, necessary for the members of the University in certification, institutional evaluation, or accreditation activities;
- it disseminates, within the University, information on national benchmarks and performance indicators for quality assessment and assurance in higher education;
- it collects and disseminates, within the University, information on European/international quality assessment standards for higher education;
- it prepares all quality assurance documents and monitors the implementation of decisions taken.

“Alexandru Ioan Cuza” University of Iasi collaborates with the Romanian Agency for Quality Assurance in Higher Education for external quality assessment at institutional level. The Quality Management Office maintains contact with the quality assurance committees of the 15 faculties and with the heads of their administrative departments to ensure institutional evaluation and **collaborates closely with the following structures dedicated to Quality Management:**

- **Comisia pentru Managementul Calității** (Commission for Quality Management) Chair – Assoc. Prof. Florin BRÎNZĂ, PhD – at University level.

The Commission for Quality Management is organized and functions in agreement with stipulations in the Law of National Education and in [Legea 87/2006](#) (Law 87/2006) for the approval of [Ordonanța de Urgență a Guvernului 75/2005](#) (Government Emergency Ordinance 75/2005) on quality assurance in education. The *Commission* is subordinate to the University’s Board of Governors and is headed by a Chair appointed by the Board of Governors.

- **Comisiile de evaluare și asigurare a calității** (Evaluation and quality assurance committees) at faculty level – carry out quality assurance activities in the faculty, monitor the quality of study programs, prepare the annual internal evaluation report on the quality of education and assist external evaluations of the faculty's study programs.

*Doctoral School of Economics and
Business Administration*

Economics

1.3.5. Transparency and access to information

The webpage of the Doctoral School of Economics and Business Administration is doctorat.feaa.uaic.ro.

The section which presents doctoral studies comprises information on:

- the regulation on the activity of doctoral studies at doctoral school level;
- the list of active members of the doctoral school with contact details and area of research interest;
- minimum standards to obtain the habilitation certificate;
- content of the advanced training program.

The second section contains information on admission to doctoral studies:

- Admission methodology, drawn up annually;
- admission topics;
- how the admission exam is conducted;
- information on the competition timetable, fees, number of places and the contents of the application file.

In addition to this information, the website publishes announcements on the public defense of *habilitation theses*, *doctoral theses* and the public defense of research reports as part of the individual scientific research program of doctoral students..

All information concerning PhD students, the educational process, research results, etc., as well as annual evaluation reports are available for internal and external stakeholders on the profile pages of DSEBA, FEAA and UAIC.

Frequently, representatives of the business community are invited for direct exchange of information with students and professors, regardless of their level (bachelor, master or doctorate) – for instance:

- ***Lecția de management (The Management Lesson)*** (<https://360.uaic.ro/blog/2018/03/23/lectia-de-management-editia-a-xiii-a/>);

Business Administration*

Economics

1.3.6. Efficiency of internal quality assurance procedures and structures

The procedure for the internal evaluation of the quality of doctoral studies offered by the Doctoral School of Economics and Business Administration is laid down in its own organizational *Regulament (Regulation)*:

The internal evaluation of the quality of the doctoral program and the performance of doctoral advisors is carried out annually during the first three months of the following year by the internal evaluation committee appointed by the Doctoral School Board. In the event of a tie vote, the head of the committee has the casting vote. The internal evaluation committee has the following tasks:

- (a) it checks compliance with the minimum standards for maintaining membership of the Doctoral School according to the Annex to the *Regulament (Regulation)*;
- (b) it proposes to the Doctoral School Board the criteria for the yearly internal evaluation;
- (c) it requires from PhD students and advisors data necessary for the evaluation and checks these data;
- (d) it analyses data received and draws the internal evaluation report;
- (e) it submits evaluation reports to the Doctoral School Board;
- (f) it proposes ways to improve the work. PhD students and advisors are required to submit the requested data to the committee for evaluation..

The internal evaluation of the performance of doctoral advisors takes into account the quality of their research outputs and of their PhD supervision. Indicators for the scientific work of doctoral advisors include :

- (a) outputs of scientific research (publications), as well as their recognition (citations, scientific awards);
- (b) organization of and participation in scientific events, editorial activity, activity in professional fora and associations.

Indicators of doctoral student mentoring activity include:

- (a) outputs of scientific research achieved by supervised doctoral students, materialized in the publications resulting from the dissertation;
- (b) participation of PhD students in conferences, summer schools, lectures, scientific seminars etc.

The internal evaluation of the quality of doctoral study programs is focused on:

- (a) the mission and objectives of the doctoral study program;
- (b) the contents and curriculum of the doctoral study program;
- (c) the development and publication of the results of the advanced study and research program;
- (d) public access, in electronic format, to summaries of publicly defended doctoral dissertations;

*Doctoral School of Economics and
Business Administration*

Economics

- (e) specific requirements of various ways of teaching and forms of running classes;
- (f) the existence of documentation, study and research means, as well as of the logistics that PhD students benefit from;
- (g) personnel involved in the unfolding of study programs;
- (h) means to assess knowledge and test the skills of doctoral students, as well as to monitor progress during training.

The internal evaluation committee active in the Doctoral School of Economics and Business Administration currently has the following members:

- Prof. Adriana ZAIȚ, PhD
- Prof. Daniela AGHEORGHIESEI, PhD
- Prof. Mircea GEORGESCU, PhD
- Prof. Ovidiu STOICA, PhD
- PhD cand. Aurelia ILIEȘ
- PhD cand. Cristian TERZA

1.3.7. Internal quality assurance system –instrument for quality management and improvement of education and of other activities

Within the "Alexandru Ioan Cuza" University of Iasi operates the Quality Management Office, a specialized department with an executive role. The mission of this department is to support the Quality Management Commission in the implementation of quality management, by planning actions, drafting self-assessment reports and specific quality assurance documents, training staff on quality assurance, conducting internal and external evaluations. Alexandru Ioan Cuza University assumes the institutional culture of quality as a means to achieve academic excellence in education and scientific research.

In the Faculty of Economics and Business Administration, within which the Doctoral School of Economics and Business Administration operates, there is a subcommittee for quality management, which carries out quality assurance activities in the faculty, monitors the quality of study programs, prepares the *Annual Internal Evaluation Report on the Quality of Education* and assists the faculty in external evaluations. The basis for the evaluation is the *Regulamentul privind inițierea, aprobarea, monitorizarea și evaluarea periodică a programelor de studii (Regulation on the Initiation, Approval, Monitoring and Periodic Evaluation of Study Programs)* approved by the University Senate, [Manualul calității](#) (the Quality Manual), [Codul de Asigurare a Calității al UAIC](#) (UAIC's Quality Assurance Code), and other documents relevant in the evaluation process.

Quality policies within "Alexandru Ioan Cuza" University of Iasi refer to:

- the ongoing improvement of the quality management system;

*Doctoral School of Economics and
Business Administration*

Economics

- the development of a quality culture based on international university standards;
- the ongoing quality assessment in order to align student-centered education with the requirements of regional partners and the university's development strategy.

Quality assurance strategies within the University envisage:

- the orientation towards meeting the needs and expectations of students, employers and other stakeholders;
- the proactive attitude of the institution's management towards quality issues, which is expressed through the creation of an environment suitable for performance along all operational dimensions;
- addressing the quality issue in strategic terms: mission, values, principles, policies, strategies, objectives;
- keeping under control and continuously improving institutional processes;
- involving and empowering staff;
- concern for the development of a quality culture;
- identifying relevant quality indicators and introducing mechanisms for their internal evaluation;
- documenting the system in order to provide objective evidence to build confidence;
- benchmarking with other universities, possibly from abroad, to identify and take over best practices in quality assurance;
- specialized training for quality staff and general quality assurance training for all staff.

The measures adopted by "Alexandru Ioan Cuza" University of Iasi in terms of quality, through the members of the Quality Management Commission and the Quality Management Office, refer to:

- the approval, monitoring and periodic evaluation of study programs and diplomas corresponding to qualifications, in accordance with the legislation in force;
- the existence of objective and transparent procedures for the assessment of learning outcomes;
- the quality of teaching and research staff;
- the functionality of the organizational structures for ensuring the quality of education, in accordance with the law.

"Alexandru Ioan Cuza" University of Iasi has requested and has had external evaluations carried out by the European Commission (2000, for the ECTS system), by the Salzburg Seminar (1999 and 2004 for the entire academic activity of the University), by EUA (2006, for scientific research) and in 2014 for institutional capacity. The findings and recommendations of the evaluation reports have contributed to institutional improvement.

*Doctoral School of Economics and
Business Administration*

Economics

As regards internal evaluation, the "Alexandru Ioan Cuza" University of Iasi carries out annual evaluations of the quality of study programs and support services.

"Alexandru Ioan Cuza" University of Iasi collaborates with the Romanian Agency for Quality Assurance in Higher Education for external quality assessment at institutional level.

The Quality Management Office liaises with the quality assurance committees of the 15 faculties and the heads of their administrative departments to ensure institutional assessment.

1.3.8. Monitoring, evaluation and ongoing development of the internal quality assurance system

Within IOSUD-UAIC, the evaluation of the activity of the doctoral schools is carried out annually, as part of the process of preparing UAIC's annual activity report. Doctoral schools contribute to this report by providing information on the scientific activity of doctoral advisors, the existing infrastructure and logistics at the level of doctoral schools, and proposals for the completion of the necessary logistic support for the smooth unfolding of specific activities, etc. In addition, the operational plan drawn up annually by the faculty leadership includes objectives and activities for the optimal running of activities.

From the Operational Plan of the Faculty of Economics and Business Administration for 2020, with reference to the activity of the doctoral and research school, we can mention the following planned activities:

- regular evaluation of research activity;
- updating data on research results;
- the use of evaluation grids that make particular use of relevant publications;
- supporting faculty members in obtaining and conducting research grants (information on competitions, administrative support, etc.);
- prompt dissemination within the Faculty of information on internal and international competitions for research grants and the implementation of research grants;
- organization of scientific events with international participation;
- supporting the regular holding of scientific seminars;
- encouraging the international mobility of academic staff and students within the framework of projects and consortia of which the University is a member;
- respecting the spirit of collective leadership including the organization of biannual general meetings with faculty members, regular briefings, etc.;
- regular risk assessment and the establishment of necessary measures.

*Doctoral School of Economics and
Business Administration*

Economics

2. SELF-EVALUATION CONCERNING THE EXTENT TO WHICH CRITERIA, STANDARDS AND PERFORMANCE INDICATORS ARE MET

2.1. INSTITUTIONAL CAPACITY(A)

2.1.1. The administrative, managerial institutional structures and financial resources(A1)

2.1.1.1. Mechanisms for the efficient operation of doctoral studies (A.1.1.)

Standard A.1.1. The institution organizing doctoral studies (IOSUD) has implemented the efficient functioning mechanisms provided for in the specific legislation on the organization of doctoral studies.

Performance indicator A.1.1.1. The existence of specific regulations and their application at the level of the doctoral school of the respective university doctoral study domain:

a) the internal regulations of the Doctoral School;

At the level of IOSUD - "Alexandru Ioan Cuza" University of Iași, and therefore also within the Doctoral School of Economics and Business Administration, including for the field of ECONOMICS, according to the legal provisions in force, doctoral studies are conducted on the basis of their own regulations, adopted by the Senate of "Alexandru Ioan Cuza" University of Iași.

Thus, for the period evaluated, the following regulations were applied at IOSUD-UAIC level ([Annex 16](#)):

- *Regulamentul instituțional de organizare și funcționare a studiilor universitare de doctorat (Institutional regulation for the organization and functioning of doctoral studies), adopted in the meeting of the Senate of the "Alexandru Ioan Cuza" University of Iași on 25.04.2013 - valid for the period 2013-2017;*
- *Regulamentul instituțional de organizare și funcționare a studiilor universitare de doctorat (Institutional regulation for the organization and functioning of doctoral studies), adopted in the meeting of the Senate of the "Alexandru Ioan Cuza" University of Iași on 27.06.2017 - valid for the academic year 2017-2018;*
- *Regulamentul instituțional de organizare și funcționare a studiilor universitare de doctorat (Institutional regulation for the organization and functioning of doctoral studies), adopted*

*Doctoral School of Economics and
Business Administration*

Economics

in the meeting of the Senate of "Alexandru Ioan Cuza" University of Iași on 28.06.2018 - starting with the academic year 2018-2019;

- *Regulamentul instituțional de organizare și funcționare a studiilor universitare de doctorat (Institutional regulation for the organization and functioning of doctoral studies)*, adopted in the meeting of the Senate of "Alexandru Ioan Cuza" University of Iași on 27.06.2019 - starting with the academic year 2019-2020;
- *Regulamentul instituțional de organizare și funcționare a studiilor universitare de doctorat (Institutional regulation for the organization and functioning of doctoral studies)*, adopted at the meeting of the Senate of "Alexandru Ioan Cuza" University of Iași on 28.06.2018 - starting with the academic year 2020-2021.

The activity of the Doctoral School of Economics and Business Administration is carried out on the basis of its own regulations, corresponding to the period evaluated. The latter are ([Annex 6](#)):

- *Regulamentul privind desfășurarea studiilor universitare de doctorat la Școala Doctorală de Economie și Administrarea Afacerilor (Regulation on the conduct of doctoral studies at the Doctoral School of Economics and Business Administration)*, approved by the IOSUD-UAIC Board of Doctoral Studies in the meeting of 18.07.2013;
- *Regulamentul privind desfășurarea activităților la Școala Doctorală de Economie și Administrarea Afacerilor (Regulation on running activities at the Doctoral School of Economics and Business Administration)*, approved by the IOSUD-UAIC Board of Doctoral Studies in the meeting of 07.03.2018.

b) the methodology for conducting elections for the position of Director of the Council Doctoral School (CDS), as well as elections by the students of their representative in the CDS and the evidence of their conduct;

The Doctoral School of Economics and Business Administration is managed by a Director appointed according to legal provisions ([Annex 17](#)) and a Council of the Doctoral School, elected by the General Assembly of doctoral advisors, respectively by the PhD students working within it, the results of these procedures being validated by the Senate of "Alexandru Ioan Cuza" University of Iași by Decision no. 3 of 27.07.2017 ([Annex 4](#)):

- Prof.Adriana ZAIȚ, PhD - Director of DSEBA;
- Prof.Mircea Radu GEORGESCU, PhD –CDS member;
- Prof.Ovidiu STOICA, PhD – CDS member;
- Prof.Daniela Tatiana AGHEORGHIESEI, PhD – CDS member;

*Doctoral School of Economics and
Business Administration*

Economics

- Prof.Elio BORGONOVİ, PhD – CDS member;
- Prof.Lucian CROITORU, PhD – CDS member;
- PhD cand. Paula Andreea TERINTE – CDS member;
- PhD cand. Paula ROIBU (CRUCIANU, upon marriage) – CDS member.

Subsequently, once the two doctoral student representatives graduated from their doctoral studies, two other representatives were elected ([Annex 4](#)), and they are:

- PhD cand. Aurelia ILIEȘ –CDS member;
- PhD cand. Cristian TERZA –CDS member.

c) the Methodologies for organizing and conducting doctoral studies (for the admission of doctoral students, for the completion of doctoral studies);

Admission examinations for doctoral studies were held each year ([Annex 18](#)), based on their own methodology; for the academic year 2020-2021, *Metodologia privind organizarea și desfășurarea admiterii în ciclul de studii universitare de doctorat pentru anul universitar 2020-2021 (Methodology on the organization and running of admission to the cycle of doctoral studies for the academic year 2020-2021)* was used, approved by the Decision of the Senate of the "Alexandru Ioan Cuza" University of Iași no. 10 of 30.01.2020 (supplemented with a specific procedure for the online admission exam, given the pandemic-related restrictions).

With regard to the completion of doctoral studies, there are specific provisions in the *Regulamentul instituțional de organizare și funcționare a studiilor universitare de doctorat (Institutional Regulation to Organize and Operate Doctoral Studies)*, with a separate regulation on the online public defence of doctoral dissertations, given the pandemic-related restrictions, through the *Procedura operațională privind finalizarea studiilor universitare de doctorat, depunerea tezei de doctorat în vederea susținerii publice online pentru perioada stării de urgență și a eventualelor consecințe care decurg din aceasta (Operational procedure on the completion of doctoral studies, the submission of doctoral dissertations for online public defence during lockdown and the possible consequences thereof)* ([Annex 19](#))

d) the existence of mechanisms for recognizing the status of a Doctoral advisor and the equivalence of a doctoral degree obtained abroad;

At the level of "Alexandru Ioan Cuza" University of Iasi, specific mechanisms have been adopted and applied for the recognition of the capacity of PhD advisor and for the equivalence of the PhD degree obtained in other countries, as follows:

*Doctoral School of Economics and
Business Administration*

Economics

- *Procedură de sistem privind recunoașterea automată de către Universitatea „Alexandru Ioan Cuza” din Iași a calității de conducător de doctorat obținută în instituții de învățământ universitar acreditate din străinătate (System procedure for the automatic recognition by the "Alexandru Ioan Cuza" University of Iași of the status of doctoral advisor obtained in foreign accredited university education institutions) no. 1423 from 31.01.2017 ([Annex 20](#));*
- *Procedură de sistem privind recunoașterea de către Universitatea „Alexandru Ioan Cuza” a diplomei de doctor și a titlului de doctor în științe sau într-un domeniu profesional obținute în instituții de învățământ universitar acreditate din străinătate (System procedure for the recognition by "Alexandru Ioan Cuza" University of the doctor's degree and of the title of doctor in science or in a professional field obtained in foreign accredited university education institutions) no. 1422 from 31.01.2017 ([Annex 21](#)).*

e) functional management structures (Council of the Doctoral School), giving as well proof of the regularity of meetings;

At the level of the Doctoral School of Economics and Business Administration, the management structures are functional and the regularity of the meetings of the Doctoral School Board is proven ([Annex 22](#))

f) the contract for doctoral studies;

According to legal provisions, between IOSUD - "Alexandru Ioan Cuza" University of Iași and each doctoral student enrolled at this higher education institution, a doctoral studies contract is concluded ([Annex 23](#)), its format being completed (in the first part of the reporting period) with an additional act aiming at the application of the CNATDCU minimum standards for the awarding of the doctoral degree ([Annex 24](#)) - currently, these provisions are included in the contract.

g) internal procedures for the analysis and approval of proposals regarding the training for doctoral study programs based on advanced academic studies.

PPUA is monitored and evaluated periodically (every 5 years) by the CDS - DSEBA, according to the School Regulation (art 6.1.2 and 6.1.3). The CSD initiates each year debates to endorse the possible change of subjects in the curriculum and the introduction of new subjects in the PPUA, in order to ensure the adaptation of the doctoral training offer to the needs of doctoral students and to the national and international educational context ([Annex 6](#)).

*Doctoral School of Economics and
Business Administration*

Economics

Performance Indicator A.1.1.2. The doctoral school's Regulation includes mandatory criteria, procedures and standards binding on the aspects specified in Art. 17 paragraph (5) of the Government Decision No. 681/2011 on the approval of the Code of Doctoral Studies with subsequent amendments and additions.

Regulamentul Școlii Doctorale de Economie și Administrarea Afacerilor (The Regulation of the Doctoral School of Economics and Business Administration) includes all mandatory provisions related to criteria, procedures and standards concerning the issues specified in Art. 17, para. 5 of H.G. 681/2011 ([Annex 6](#)).

Thus, with regard to the *acceptance of new doctoral advisor members, as well as regulations on how a doctoral advisor may be withdrawn from membership of the doctoral school*, Art. 3.1.(2) refers to the existence of a specific procedure for affiliation to the DSEBA (set out in Annex R3 to this Regulation), while Art. 3.1.(4) and 3.1.(5) contain provisions on how a doctoral advisor's affiliation to the DSEBA may be withdrawn.

The mechanisms through which decisions are taken regarding the appropriateness, structure and content of the training program based on advanced university studies are set out in section 6.2. of the Regulation, specifically dedicated to the Advanced University Studies Program, highlighting both the role of the doctoral school, which establishes a curricular offer carried out over a period of 14 weeks - art. 6.2(4), as well as that of the doctoral advisor, who must advise the doctoral candidate on the choice of study elements in the curricular area proposed by the doctoral school - art. 6.2(5).).

At the same time, there are explicit provisions on *procedures to change a doctoral student's advisor*, within the same field of doctoral studies, in art. 3.1.(8) and art. 3.1.(9), and *procedures to mediate conflicts*, art. 3.1.(11) being relevant in this respect.

With regard to the *circumstances under which the doctoral program may be interrupted*, Art. 5.3(1) explicitly states the grounds on which a doctoral student may request the interruption of doctoral studies, while Art. 5.3(2) contains clarifications on the impact of the interruption of doctoral studies on funding, eligibility of expenses incurred, the maximum number of doctoral students per scientific advisor etc.

Regulamentul Școlii Doctorale de Economie și Administrarea afacerilor (The Regulation of the Doctoral School of Economics and Business Administration) insists on aspects related to how to prevent fraud in scientific research, including plagiarism, allocating an entire chapter to these elements. Thus, chap. 8 is titled *Etica cercetării și principii de prevenire a fraudei academice* (Research Ethics and Principles for the Prevention of Academic Fraud) and it contains eight articles covering essential provisions applicable in this area throughout the doctoral program.

*Doctoral School of Economics and
Business Administration*

Economics

Ensuring *access to research resources* is envisaged by the Regulamentul Școlii Doctorale de Economie și Administrarea Afacerilor [*Regulation of the Doctoral School of Economics and Business Administration*], which refers, in Art. 4.3(1), to Art. 16 of the *Regulamentul instituțional de organizare și funcționare a studiilor universitare de doctorat (Institutional Regulation for the Organization and Operation of Doctoral Studies)*, which states that *during the course of the doctoral studies, doctoral students have the right ... (d) to benefit from the logistics, documentation centers, libraries and equipment of the University for the elaboration of research projects and doctoral dissertations.*

Last but not least, Regulamentul Școlii Doctorale de Economie și Administrarea Afacerilor (Regulation of the Doctoral School of Economics and Business Administration) contains provisions related to the *attendance policy of doctoral students*, articles 5.1.(1) and 5.1.(2) being relevant in this respect.

2.1.1.2. Logistic resources (A.1.2.)

Standard A.1.2. IOSUD has the logistic resources necessary to carry out the doctoral studies mission.

Performance indicator A.1.2.1. The existence and effectiveness of an appropriate IT system to keep track of the doctoral students and their academic background

IOSUD – “Alexandru Ioan Cuza” University of Iași implemented an informatics system which allows keeping track of the doctoral students and their academic background. The system is called *eSims* and it is the result of the implementation of the project *Sistem informatic integrat privind managementul activităților profesionale ale studenților în contextul transformărilor generate de procesul Bologna [Integrated informatics system for the students’ professional activities management within the context of the changes triggered by the Bologna process]*, financed by the Ministry of Education and Research ([Annex 25](#)). The system has constantly been updated and improved by the specialists working within the Department of Statistics and Computerization IOSUD-UAIC to best meet the needs of the higher education establishment.

According to *Protocolul de finalizare a proiectului [the Project completion protocol]* ([Annex 26](#)), the informatics system can be used by two categories of users: occasional users (students and professors), who have access to individual data and use the system when they need information, and “professional” users, who use the application on a daily basis, to carry out student management activities (secretariat, databases, faculty and university management, etc.).

It should be noted that IOSUD-UAIC was actively involved in the implementation of the *Official Academic Record* across the entire country, promoting and successfully completing two

*Doctoral School of Economics and
Business Administration*

projects funded by CNFIS through the *Institutional Development Fund (IDF)* aimed to update the database and ensure its compatibility with the structure and constraints imposed by the *Official Academic Record*:

- IDF project entitled *Asigurarea transparenței în gestiunea studenților și implementarea Registrului Matricol Unic al Universităților din România în cadrul Universității „Alexandru Ioan Cuza” din Iași*[*Ensuring transparency in student management and implementation of the Official Academic Record of Romanian Universities within the “Alexandru Ioan Cuza” University of Iași*], project code: CNFIS-FDI-2016-0021, 2016, project director: Professor Liviu-George MAHA, PhD;
- IDF project entitled *Asigurarea transparenței în gestiunea studenților și implementarea Registrului Matricol Unic al Universităților din România în cadrul Universității „Alexandru Ioan Cuza” din Iași* [*Ensuring transparency in student management and the implementation of the Official Academic Record of Romanian Universities within the “Alexandru Ioan Cuza” University of Iași*], project code: CNFIS-FDI-2017-0084, 2017, project director: Professor Liviu-George MAHA, PhD.

Performance indicator A.1.2.2. Existence and use of an appropriate software program and evidence of its use to verify the percentage of similarity in all doctoral theses.

The “Alexandru Ioan Cuza” University of Iași has shown ongoing concern for ensuring the necessary resources to check the similarity percentage for all the works elaborated by students from all three levels of university studies, including PhD theses ([Annex 27](#)). Thus, since 2006, within IOSUD-UAIC, a special module has been used for this function within the eLearning platform Blackboard – *SafeAssign*. The “Alexandru Ioan Cuza” University of Iași was one of the first higher education institutions in Romania to invest in this area, and the only public university to acquire this e-learning platform.

The licenses to use this application have been extended on a yearly basis, through successive procurement contracts ([Annex 28](#)). In 2018, the decision to adopt another technical solution based on *Moodle* in order to secure the eLearning platform for the distance learning and part-time learning, resulted in the annual purchase of the Turnitin application ([Annex 29](#)). This ensures the access of the teaching staff from the “Alexandru Ioan Cuza” University of Iasi, including PhD advisor, to the application, and grants PhD students the opportunity to use an informatics program to verify the similarity percentage in PhD theses.

Business Administration*

Economics

2.1.1.3. Financial resources (A.1.3.)

Standard A.1.3. IOSUD makes sure that the financial resources are used optimally, and that the revenues obtained from doctoral studies are supplemented through additional funding besides the governmental funding.

Performance indicator A.1.3.1. Existence of at least one research or institutional/ human resources development grant under implementation at the time of submission of the internal evaluation file, per doctoral study domain under evaluation, or existence of at least 2 research or institutional development/ human resources grants for the doctoral study domain, obtained by doctoral thesis advisors operating in the evaluated domain within the past 5 years. The grants address relevant topics for the respective domain and, as a rule, they engage doctoral students.

Upon submission of the evaluation file, IOSUD “Alexandru Ioan Cuza” University of Iasi is implementing a number of grants/ research projects or institutional development projects, which involve PhD students in the field of ECONOMICS, as follows:

- Project POCU/380/6/13/123623: ***Doctoranzi și cercetători postdoctorat pregătiți pentru piața muncii! [PhD students and postdoctoral researchers ready for the labor market]***, project value: 1.5 million EUR; implementation period: 2019-2021; project director: Professor Liviu-George Maha, PhD habil.
- Project POCU/380/6/13/125015: ***Dezvoltarea abilităților antreprenoriale pentru doctoranzi și postdoctoranzi în domeniul științelor economice [Developing entrepreneurial skills in PhD students and postdoctoral researchers in the field of economic sciences]*** - acronym: InoVant, project value 6,874,227.91 RON, implementation period 2019-2021, UAIC coordinator: Professor Mircea Georgescu, PhD

At the same time, throughout the reporting period, the PhD thesis advisors in the field of ECONOMICS have implemented other research projects, such as:

- Research project: ***Perspective de Promovare a Dezvoltării Durabile în România și în Republica Moldova prin Operaționalizarea de Bune Practici Europene Relevante [Perspectives for Promoting Sustainable Development in Romania and the Republic of Moldova through the Operationalization of Relevant European Good Practices]***, PN-III-CEI-BIM-PM – Competition Romania-Moldova, DEVEUROMD - ID BM42/2016, project value 58,530 RON, implementation period 2016-2018, Project coordinator UAIC: **Professor Ion Pohoăț, PhD;**

- **Scientific Convergence and Interdisciplinarity in EU Environmental Research (SCIENVIR)**, Erasmus+ Jean Monnet Project, reference number 575254-EPP-1-2016-1-RO-EPPJMO-PROJECT, project value 78,564 EUR, implementation period 2016-2018, Implementation team member (expert): **Professor Ion Pohoăț, PhD.**

*Performance indicator *A.1.3.2. The percentage of doctoral students active at the time of the evaluation, who receive, for at least six months, additional funding sources besides government funding, through scholarships awarded by individual persons or by legal entities, or who are financially supported through research or institutional/ human resources development grants is at least 20%.*

PhD students in the field of ECONOMICS and forms of financing

<i>Year of study</i>	<i>PhD student</i>	<i>Form of financing</i>	<i>Other sources of financing</i>
1 ST YEAR	Ivan C. Cătălin-Sorin	Paid tuition	
1 ST YEAR	Brezuleanu S. Mădălina – Maria	UAIC Scholarship

1 ST YEAR	Oțel G. Eduard – Alexandru	MEC Scholarship	
2 ND YEAR	Herțeliu căs. Călinescu I. Mariana	MEC Scholarship	
3 RD YEAR	Corduneanu V.V. Alexandru	UAIC Scholarship	YES
3 RD YEAR	Terza G. Gicu - Cristian	MEC Scholarship	YES
Extension period	Zanet căs. Ailincăi-Zanet G. Maria		YES
Extension period	Căriman M. Gabriel		
Extension period	Cojocaru C. Bogdan - Sergiu		
Extension period	Mihalache G. Iuliana - Claudia		
Extension period	Ghiurcă C. Camelia		
TOTAL	12 PhD students	3 – UAIC Scholarship	3 – other sources of financing

As it results from the table above, upon completion and submission of the evaluation file of the doctoral studies in the field of ECONOMICS, **three PhD students undergoing doctoral training** benefitted from financial support for a period of 12 months (October 2019 – October 2020), within projects carried out by the “Alexandru Ioan Cuza” University of Iasi, as follows:

*Doctoral School of Economics and
Business Administration*

Economics

- **Corduneanu Alexandru, PhD student** – financial support in the form of a “PhD student entrepreneur” scholarship, in the amount of 400 EUR/ month, within the Project “Dezvoltarea abilităților antreprenoriale pentru doctoranzi și postdoctoranzi în domeniul științelor economice [Development of entrepreneurial skills for doctoral and postdoctoral students in the field of economic sciences]” – acronym: InoVant, POCU/380/6/13/125015, implementation period 24.05.2019-23.05.2021.
- **Terza Gicu - Cristian, PhD student** – financial support in the form of a “PhD student entrepreneur” scholarship, in the amount of 400 EUR/ month, within the Project “Dezvoltarea abilităților antreprenoriale pentru doctoranzi și postdoctoranzi în domeniul științelor economice [Development of entrepreneurial skills for doctoral and postdoctoral students in the field of economic sciences]” – acronym: InoVant, POCU/380/6/13/125015, implementation period 24.05.2019-23.05.2021.
- **Zanet (married Ailincăi-Zanet) Maria, PhD student** – financial support in the form of a “PhD student entrepreneur” scholarship, in the amount of 400 EUR/ month, within the Project “Dezvoltarea abilităților antreprenoriale pentru doctoranzi și postdoctoranzi în domeniul științelor economice [Development of entrepreneurial skills for doctoral and postdoctoral students in the field of economic sciences]” – acronym: InoVant, POCU/380/6/13/125015, implementation period 24.05.2019-23.05.2021.

Moreover, **three PhD students** benefit from a monthly scholarship equivalent to the MEN scholarship, for the entire duration of the doctoral training, from the funds of the IOSUD – “Alexandru Ioan Cuza” University of Iasi, as follows:

- **Corduneanu Alexandru, PhD student** – 3rd year
- **Brezuleanu Mădălina-Maria, PhD student** – 1st year
- **Pipirig (married Tofan) Ionela, PhD student** – 1st year

Thus, **5 of the 12 PhD students** undergoing their doctoral training in the field of ECONOMICS within the Doctoral School of Economics and Business Administration benefit (or benefitted), for a period of at least six months, from sources of funding other than government funding, through scholarships granted by natural or legal persons, or are financially supported by research or institutional development/ human resources grants, which represents a **share of 41.11%** of the total number of PhD students in this field, above the lower limit of 20% provided by standards.

We also mention the fact that some of the doctoral students who completed their studies and obtained the PhD title during the evaluated period, benefitted, throughout their doctoral studies, from financial support within some projects:

Performance indicator *A.1.3.3. At least 10% of the total amount of doctoral grants obtained by the university through institutional contracts and of tuition fees collected from the doctoral students enrolled in the paid tuition system is used to reimburse professional training expenses of doctoral students (attending conferences, summer

*Doctoral School of Economics and
Business Administration*

Economics

schools, training, programs abroad, publication of specialty papers or other specific forms of dissemination etc.).

The Doctoral School of Economics and Business Administration has demonstrated, over time, a constant concern for the training of all doctoral students, including those enrolled in doctoral studies in the field of ECONOMICS, by involving or financially supporting their participation in various activities (conferences, workshops, research internships, etc.).

At the same time, it should be emphasized that the Doctoral School of Economics and Business Administration applies the BECA-UAIC Decision no. D2 of 07.06.2018, through which each doctoral student within IOSUD – “Alexandru Ioan Cuza” University of Iasi has the right to benefit, annually, from an amount of 3,000 RON for participation in prestigious scientific conferences in their field of specialization ([Annex 30](#)).

To verify this criterion, detailed evidence of such expenses is required at the level of each doctoral school, field of doctoral studies and doctoral student. Prior to 2018, IOSUD-UAIC, the faculties within the “Alexandru Ioan Cuza” University of Iasi and the Financial-Accounting Department would carry out this management only at IOSUD and faculty level; thus, we based our estimates on the information received from the person in charge of the DSEBA budget management – Mr Iulian CLAIN, Chief Administrator of the Faculty of Economics and Business Administration (asf@uaic.ro) (according to DSEBA Regulation). Starting with 2018, the budgets related to DSEBA were extracted separately.

Thus, the revenue related to each academic year was estimated taking into account the number of doctoral students (enrolled starting with the academic year 2016-2017) who occupy budgeted seats and the amount of a doctoral grant (about 23,000 RON, given the differences recorded over time from one academic year to another, as well as those existing between the two categories of doctoral fields managed by DSEBA), but also the tuition fees paid by doctoral students.

Statement of revenue:

2016-2017

- total revenue from doctoral grants (82 PhD students) – 1,414,500 RON
- total revenue from tuition fees (22 PhD students) – 92,400 RON

2017-2018

- total revenue from doctoral grants (82 PhD students) – 1,886,000 RON
- total revenue from tuition fees (22 PhD students) – 108,000 RON

2018-2019

- total revenue from doctoral grants (82 PhD students) – 1,414,500 RON

*Doctoral School of Economics and
Business Administration**Economics*

- total revenue from tuition fees (22 PhD students) – 92,400 RON
2019-2020
- total revenue from doctoral grants (88 PhD students) – 1,602,400 RON
- total revenue from tuition fees (21 PhD students) – 126,000 RON
2020-2021
- total revenue from doctoral grants (74 PhD students) – 1,090,050 RON
- total revenue from tuition fees (37 PhD students) – 149,850 RON

In order to estimate expenses, the following were considered: participation fees for various conferences or scientific events organized by DSEBA through the Faculty of Economics and Business Administration, or events where DSEBA had the quality of partner or co-organizer that the doctoral students did not have to pay. The expenses were incurred by FEAA from its own revenues, including sponsorships; to these were added travel expenses related to the participation of DSEBA PhD students in various scientific events.

Statement of expenses:

- PhD students participating in GEBA 2015 – 30;
- PhD students participating in GEBA 2016 – 33;
- PhD students participating in GEBA 2017 – 29;
- PhD students participating in GEBA 2019 – 24;
- PhD students participating in GEBA 2020 – 2;
- PhD students participating in the ASE 2018 Conference (Sebastian TOCAR, PhD student; Mihaela STIR, PhD student) – 2;
- PhD students participating in the Creative Industries Conference (Mihaela STIR, PhD student; Carmit Moshe ROZENTHAL, PhD student; Ortal KANTOROVITZ, PhD student) – 3;
- PhD students participating in ERMAS 2018 – 4;
- **total expenses related to participation fees: 118 x 100 EUR x 4.8 RON/ EUR = 56,640 RON;**
- travel expenses related to PhD students' participation in scientific conferences (Daniela Băluțel, PhD student – 3,550 RON, Otilia Oprea, PhD student – 3,264 RON, Nicoleta Pintilie, PhD student – 4,427 RON, Nicu Sprincean, PhD student – 6,985 RON) – 18,226 RON; Alexandra Raluca Jelea, PhD student – 1,652 RON, Mihaela Murariu, (Pleşca), PhD student – 1,540 RON).

*Doctoral School of Economics and
Business Administration*

- Doctoral grants with non-reimbursable funds, which involved own financial resources in the form of co-financing from own revenues in an amount of:
 - Project title: “Dezvoltarea abilităților antreprenoriale pentru doctoranzi și postdoctoranzi în domeniul științelor economice [Development of entrepreneurial skills for doctoral and postdoctoral students in the field of economic sciences]”
 - Code SMIS 2014+: 125015
 - Own contribution (2%) 32,766.25 RON
 - Non-reimbursable financing 1,605,546.23 RON
 - Project title: “Identificarea și analiza așteptărilor angajatorilor și absolvenților Universității Alexandru Ioan Cuza din Iași (UAIC) privind accesul și integrarea pe piața muncii [Identification and analysis of the Alexandru Ioan Cuza University of Iasi (UAIC) employers and graduates’ expectations regarding access and integration on the labor market]”
 - Code CNFIS-FDI-2017-0316
 - Own contribution 6,500 RON
 - Project value 137,000 RON
 - Project title: “Dezvoltarea și sprijinirea spiritului antreprenorial în rândul studenților și absolvenților Universității “Alexandru Ioan Cuza” din Iasi (UAIC) [Developing and supporting the entrepreneurial spirit among the students and graduates of the “Alexandru Ioan Cuza” University of Iasi (UAIC)]”
 - Code CNFIS-FDI-2018-0048
 - Own contribution 14,000 RON
 - Project value 156,000 RON
 - Project title: “Studenții UAIC de azi - antreprenori pentru un viitor sustenabil [UAIC students today – entrepreneurs for a sustainable future]”
 - Code CNFIS-FDI-2019-0252
 - Own contribution 25,790 RON
 - Project value 250,790 RON
 - Project title: “Antreprenariat studentesc pentru o economie competitivă [Student entrepreneurship for a competitive economy]”
 - Code CNFIS-FDI-2020-0553
 - Own contribution 26,000 RON
 - Project value 196,000 RON

Total revenue from doctoral grants – 6,995,100 RON

Total expenses for Conferences and travel – 96,284 RON

*Doctoral School of Economics and
Business Administration*

Economics

Total co-financing expenses – 72,290 RON

- **Total expenses for Grants = 168,574 RON.**

Overhead expenses:

- Organization of the National Conference of the Doctoral Schools from the Universitaria Consortium, sections Economic Sciences and Public Administration, UAIC Iasi, 27-30 June 2019
TOTAL ESTIMATE (60 PHD STUDENTS PARTICIPATING) 7730 RON
- Software for qualitative data processing ATLAS.ti Educational Single User License (PC + Mac),
pcs. 1 x 3002,37 = 3,002.37 RON
- Software for qualitative data processing NVivo 12 Plus
pcs. 1 x 3625,93 = 3,268.93 RON
- Microsoft Windows 10 Professional License pcs. 5 x 940 = 4,700 RON

Total Overhead Expenses 18,701.3 lei

The expenses incurred for conferences and other training activities for PhD students are added those occasioned by the conference organized in 2019 together with partners from Israel, namely, the Conference “Advances in social sciences research –multidisciplinary perspectives”, 23 May 2019, Holon, Israel. The conference was attended by 19 DSEBA PhD students (all years of study), the total value amounting to 9,500 RON (PhD students from Israel, enrolled at DSEBA).

We also add here the publication expenses in the Review of Economic and Business Studies (REBS, <http://rebs.feaa.uaic.ro/>), the DSEBA journal, as follows: 2020 – 5 PhD students, 2019 – 6 PhD students, 2018 – 5 PhD students, 2017 – 3 PhD students, 2016 – 3 PhD students. The total of publication expenses amounts to 11,000 RON.

Thus, the **total expenses amount to 207,775.3 RON.**

*Doctoral School of Economics and
Business Administration*

Economics

Consequently, **the percentage computed over the total evaluation period is 2.98%**. The percentage for the period 2015-2019 was 4.37%. Given that 2020 was affected by the pandemic (on the one hand, due to the drastic fall in physical travel, and, on the other, the significant cut in spending on online conferences, plus the organization of free access conferences), we can consider that the budget allocated was correct and will increase as soon as face-to-face activities are resumed.

The percentage established at the previous evaluation was 5%, and DSEBA was close to meeting this target, reaching 4.37%. Currently, despite the failure to reach the new percentage of 10%, established and communicated (retroactively) as an evaluation standard in 2020, there is an obvious concern shown by IOSUD-UAIC, FEAA and DSEBA to support, including financially, the training of PhD students through participation in conferences, summer schools, courses, internships abroad, publication of specialized articles or other specific forms of dissemination, etc., which is a prerequisite for meeting this requirement over the next period.

2.1.2. Research infrastructure (A.2.)

Standard A.2.1. IOSUD has a modern research infrastructure to support the conduct of doctoral studies' specific activities.

Performance indicator A.2.1.1. The venues and the material equipment available to the doctoral school enable the research activities in the evaluated domain to be carried out, in line with the assumed mission and objectives (computers, specific software, equipment, laboratory equipment, library, access to international databases etc.). The research infrastructure and the provision of research services are presented to the public through a specific platform. The research infrastructure described above, which was purchased and developed within the past 5 years, will be presented separately.

The venues and the material equipment available at the Doctoral School of Economics and Business Administration allow carrying out research activities in the field of ECONOMICS, in line with the mission and objectives undertaken. Thus, the headquarters of the Doctoral School of Economics and Business Administration is located in Building R of the “Alexandru Ioan Cuza” University of Iași, 14 Al. Lapusneanu Street. PhD students can use individual offices/ study rooms equipped with 10 Lenovo All-In-One desktop systems, laptops and multifunction printers. Equally, the same modern building accommodates the activities organized by DSEBA: courses, seminars,

*Doctoral School of Economics and
Business Administration*

Economics

workshops, conferences, public defenses of doctoral theses, etc.; all rooms are equipped with the most modern facilities: *smartboards*, laptops, sound system, Internet connection, etc.

In addition to the mini-library set up in the individual study room (R411) for the exclusive use of doctoral students, it should be noted that they also have access to the resources offered by the two libraries of the Faculty of Economics and Business Administration. Of these, the FEAA Library specializes in the field of Economics, but, given the variety of related subjects of study, it also holds publications in the fields of socio-politics, history, geography, as well as a collection of reference works (encyclopedias, dictionaries, monographs, legislation). The document collections consist of approximately 25,000 volumes (books and serial publications – Romanian and foreign), subscriptions to foreign and Romanian periodicals on traditional support, electronic documents and other specialized audio-visual materials; database subscriptions (InfoTrac-Custom Journals; Encyclopedias Britannica online and Universalis online). Logistics includes a network of 100 computers, 3 photocopiers, 3 printers, an e-mail server, video surveillance system, fire and security surveillance system, fingerprint access system, electronic anti-theft system for each volume. Internet browsing is provided by the University’s network and it is free of charge, and the Server Department within FEAA is responsible for ensuring electronic security. The Database Department designed a publications processing library software, equipped with an online catalog and search engine.

The educational resources presented above are complemented by online databases that the DSEBA community has access to by subscription via ANELIS PLUS 2020 - *Acces National Electronic la Literatura Stiințifică pentru Susținerea Sistemului de Cercetare și Educație din România*[*National Electronic Access to Scientific Literature to Support the Research and Education System in Romania*], project co-financed by the Regional Development European Fund through the Competitiveness Operational Program 2014-2020, which provides access to databases such as: *Science Direct Freedom Collection, Scopus, SciFinder (CAS), MathSciNet* etc., to which is added a significant number of other databases that can be accessed via the “Mihai Eminescu” Central University Library in Iasi.

The PhD supervisors in the field of ECONOMICS, as well as some of the PhD students enrolled in this field of doctoral studies are also involved in the activities of the *Research Center in Economics and Business Communication* within the “Alexandru Ioan Cuza” University of Iasi.

2.1.3. Quality of Human Resource (A.3.)

2.1.3.1. Doctoral thesis advisors (A.3.1.)

Standard A.3.1. At the level of each doctoral field, there is qualified staff with the necessary expertise to carry out the doctoral study program.

*Doctoral School of Economics and
Business Administration*

Economics

Performance indicator A.3.1.1. Minimum three doctoral thesis advisors within that doctoral domain, and at least 50% of them (but no less than three) meet the minimum standards of the National Council for Attestation of University Degrees, Diplomas and Certificates (CNATDCU) in force at the time when the evaluation is carried out, standards required and mandatory for obtaining the habilitation certification.

For the academic year 2020-2021, there are 5 doctoral thesis advisors who carry out doctoral supervision activities in the field of ECONOMICS, within the Doctoral School of Economics and Business Administration, “Alexandru Ioan Cuza” University of Iasi. The thesis advisors obtained this quality under the regulations in force, as follows:

No.	Doctoral thesis advisor	Document certifying the quality of doctoral thesis advisor
1.	Professor Andreea-Oana IACOBUȚĂ – MIHĂIȚĂ, PhD	4649/30.07.2019 (Annex 8)
2.	Professor Laura DIACONU (married MAXIM), PhD	4125/28.05.2019 (Annex 9)
3.	Professor Cristian POPESCU, PhD	4126/28.05.2019 (Annex 10)
4.	Professor Ion POHOAȚĂ, PhD	4189/09.08.1999 (Annex 11)
5.	Professor Ion IGNAT, PhD	4222/11.07.1997 (Annex 11)

Four of them meet the CNATDCU minimum standards in force at the time of this evaluation report, necessary and mandatory for obtaining the habilitation certificate in the field of ECONOMICS, with the following scores:

No.	Doctoral thesis advisor	CNATDCU minimum standards met	Publications score (P)	Citations score (C)	Total score (S)
1.	Professor Andreea-Oana IACOBUȚĂ – MIHĂIȚĂ, PhD	YES (Annex 12)	4.81	7.00	11.81
2.	Professor Laura DIACONU (married MAXIM), PhD	YES (Annex 13)	5.70	6.00	11.70

*Doctoral School of Economics and
Business Administration**Economics*

3.	Professor Cristian POPESCU, PhD	YES (Annex 14)	4.09	5.50	9.59
4.	Professor Ion POHOAȚĂ, PhD	YES (Annex 15)	3.79	4.50	8.29

Professor Ion Ignat, PhD does not meet the CNATDCU minimum standards currently in force but had a significant scientific contribution throughout his employment. Professor Ion Ignat turned 70 in November 2017. He is currently an associate doctoral thesis advisor who, according to the IOSUD and DSEBA Regulations, is no longer involved in the activities related to the admission and supervision of new PhD students, teaching, etc.; at present, he supervizes two PhD students under “extension”.

Performance indicator *A.3.1.2. At least 50% of all doctoral advisors in the doctoral field under assessment have a full-time employment contract for an indefinite period with the IOSUD.

Three of the PhD supervisors, **(66.67%) are tenured** in the *Department of Economics and International Relations* within the Faculty of Economics and Business Administration, “Alexandru Ioan Cuza” University of Iasi; the other two are retired, currently associate faculty and former tenured faculty at the same higher education institution.

No .	Doctoral thesis advisors	Status
1	Professor Andreea-Oana IACOBUȚĂ – MIHĂIȚĂ, PhD	Tenure (Annex 31)
2	Professor Laura DIACONU (married MAXIM), PhD	Tenure (Annex 31)
3	Professor Cristian POPESCU, PhD	Tenure (Annex 31)
4	Professor Ion POHOAȚĂ, PhD	Tenure during 2015-2016 Associate faculty (retired) since 2016 (Annex 31)

*Doctoral School of Economics and
Business Administration*

Economics

5	Professor Ion IGNAT, PhD	Associate faculty (retired), turned 70 in November 2017
---	--------------------------	---

Performance indicator A.3.1.3. The study subjects in the education program based on advanced higher education studies pertaining to the doctoral domain are taught by teaching staff or researchers who are doctoral thesis advisors/ certified doctoral thesis advisors, professors/ CS I or associate professors/ CS II, with proven expertise in the field of the study subjects they teach, or other specialists in the field who meet the standards established by the institution in relation with the aforementioned teaching and research functions, as provided by the law.

The teaching activities pertaining to the subjects included in the curriculum are carried out by faculty or researchers experienced in the area of study; most of them are professors or associate professors or they are certified doctoral thesis advisors.

The distribution of the teaching activities by subjects included in the curriculum for the academic year 2020-2021 is given in the table below:

No.	Subject	Subject coordinator	Academic or research titles	Doctoral advisor/ Certified
1.	<i>Epistemology</i>	Liviu-George MAHA	Professor	YES
2.	<i>Research Methodology</i>	Dumitru ZAIȚ	Professor	YES
3.	<i>Research and Analysis Methods for Quantitative Data</i>	Elena Carmen PINTILESCU Vasile Dănuț JEMNA Mircea ASANDULUI	Professor Professor Professor	YES YES YES

Performance indicator *A.3.1.4. The percentage of doctoral thesis advisors who concomitantly coordinate more than 8 doctoral students, but no more than 12, undergoing doctoral training, does not exceed 20%.

Within the Doctoral School of Economics and Business Administration, the share of doctoral thesis advisors in the field of ECONOMICS who simultaneously coordinate more than 8 doctoral students, but not more than 12, currently undergoing doctoral training (3 years, to which can be added the legally granted extension period) is 0%.

The distribution of PhD students enrolled in the field of doctoral studies ECONOMICS during the academic year 2020-2021, by doctoral advisor, is given in the table below:

Doctoral advisors in the field of Economics and number of PhD students

No.	Doctoral advisor	PhD students	PhD students (in 'extension')	Total number of PhD students
1.	Professor Ion POHOAȚĂ, PhD	4	3	7
2.	Professor Andreea-Oana IACOBUȚĂ-MIHĂIȚĂ, PhD	2	0	2
3.	Professor Cristian POPESCU, PhD	1	0	1
4.	Professor Laura DIACONU (married MAXIM), PhD	0	0	0
5.	Professor Ion IGNAT, PhD	0	2	2
	TOTAL	7	5	12

2.1.3.2. Research Visibility (A.3.2.)

Standard A.3.2. The Doctoral advisors within the domain are carrying out a scientific activity visible at international level.

Performance indicator A.3.2.1. At least 50% of the doctoral thesis advisors in the evaluated domain have at least 5 Web of Science - or ERIH- indexed publications, in impact factor journals, or other achievements of relevant significance for that domain,

*Doctoral School of Economics and
Business Administration*

Economics

including international-level contributions that indicate progress in scientific research - development - innovation for the evaluated domain. The aforementioned doctoral thesis advisors enjoy international awareness within the past five years, consisting of: membership on scientific boards of international publications and conferences; membership on boards of international professional associations; guests in conferences or expert groups working abroad, or membership on doctoral defense commissions at universities abroad or co-leading with universities abroad. For Arts and Sports and Physical Education Sciences, doctoral thesis advisors shall prove their international visibility within the past five years by their membership on the boards of professional associations, membership in organizing committees of arts events and international competitions, membership on juries or umpire teams in artistic events or international competitions.

Four of the five PhD thesis advisors in ECONOMICS, affiliated to the Doctoral School of Economics and Business Administration, **i.e. 80%**, have published at least five articles in indexed Web of Science journals with not-null impact factor, as follows (Annexes [32](#), [33](#), [34](#), [35](#)):

No.	Doctoral advisor	Web of Science Articles with IF	Web of Science Articles without IF & Web of Science Proceedings
1.	Professor Andreea-Oana IACOBUȚĂ – MIHĂIȚĂ, PhD	8	11
2.	Professor Laura DIACONU (married MAXIM), PhD	6	19
3.	Professor Cristian POPESCU, PhD	9	7
4.	Professor Ion POHOAȚĂ, PhD	9	7

The international visibility over the last five years of the work carried out by the doctoral advisors in the field of ECONOMICS affiliated to the Doctoral School of Economics and Business Administration can also be proven by the following:

- Member of scientific boards of international publications: Professor Ion POHOAȚĂ, PhD – guest editor *Transformations in Business&Economics* (Web of Science, SCOPUS); member International Advisory Board *Eastern Journal of European Studies* (Web of Science, SCOPUS); chief editor *Review of Economics and Business Studies*; editorial board member *Scientific Annals of Economics and Business* (Web of Science); scientific board – *The Annals of the Stefan cel Mare University of Suceava. Fascicle of the Faculty of Economics and Public Administration*; editorial

*Doctoral School of Economics and
Business Administration*

Economics

board member *Journal of Business and Management Sciences*; editorial board member – *Romanian Economic and Business Review*; Professor Andreea-Oana IACOBUȚĂ, PhD – guest editor *Transformations in Business&Economics* (Web of Science, SCOPUS), editorial board member *The International Journal of Health Economics*; Professor Cristian POPESCU, PhD – editor *Scientific Annals of Economics and Business* (Web of Science), member of the International Advisory Board *Eastern Journal of European Studies* (Web of Science, SCOPUS); Professor Laura DIACONU (MAXIM) - editorial board member *The International Journal of Health Economics* etc.

- Member of scientific boards of international conferences: Professor Ion POHOAȚĂ, PhD (*International Conference on Theoretical and Applied Economic Practices – Economic Growth in Conditions of Globalization: competitiveness, innovation, sustainability*, Chisinau, 2018; 9th edition of the *Annual International Conference-Globalization and Higher Education in Economics and Business Administration* 2016, Iași; *I.CO.D.ECON.2016, 2018-International Conference of Development and Economy*, Kalamata, Greece;); Professor Andreea-Oana IACOBUȚĂ, PhD (*International Scientific and Professional Conference Contemporary issues in economy and technology – CIET 2020 and CIET 2018*, University of Split, Croatia;*I.CO.D.ECON.2016, 2018, 2020-International Conference of Development and Economy*, Kalamata, Greece; *ICISS 2018*, The Bucharest University of Economic Studies, Bucharest; *ECMLG European Conference on Management Leadership and Governance - 2016, 2017, 2019*; *ECIC European Conference on Intellectual Capital*, 2019; *ICIE International Conference on Innovation and Entrepreneurship - 2016, 2017, 2018*; *ICMLG International Conference on Management, Leadership and Governance - 2016, 2017, 2018*); Professor Cristian POPESCU, PhD (*Annual International Conference-Globalization and Higher Education in Economics and Business Administration – GEBA –2017, 2019, 2020*, Iași; *I.CO.D.ECON.2016, 2018, 2020-International Conference of Development and Economy*, Kalamata, Greece); Professor Laura DIACONU (MAXIM), PhD (*I.CO.D.ECON.2016, 2018, 2020 -International Conference of Development and Economy*, Kalamata, Greece) etc.

- Member of Professional Associations: Societatea Română de Filosofie Economică [Romanian Society of Economic Philosophy]; International Society of New Institutional Economics; International Economics Development and Research Center -IEDRC; AGER (Professor Ion POHOAȚĂ, PhD).

- Number of citations of published papers, as follows:

Doctoral School of Economics and
Business Administration

2.2. EDUCATIONAL EFFECTIVENESS (B)

2.2.1. Admission to doctoral school (B.1.)

2.2.1.1. Competition/Attractiveness in the admission contest (B.1.1.)

B.1.1. The institution organizing doctoral studies has the capacity to attract candidates from outside the higher education institution or a number of candidates exceeding the number of seats available

*Performance indicator *B.1.1.1. The ratio between the number of graduates of masters' programs of other higher education institutions, national or foreign, who have enrolled for the doctoral admission contest within the past five years and the number of seats funded by the state budget, put out through contest within the doctoral domain is at least 0.2 or the ratio between the number of candidates within the past five years and the number of seats funded by the state budget put out through contest within the doctoral studies domain is at least 1.2.*

The centralized situation of the candidates for admission to doctoral studies in the field of ECONOMICS, for the reported period, is presented in the following table:

Admission session	Total number of seats on contest	Number of seats funded by the state budget (MEC scholarships, UAIC scholarships and state buget – no	Number of candidates	Number of master program graduates from other national or foreign higher education institutions enrolled for the doctoral admission contest
-------------------	----------------------------------	--	----------------------	---

*Doctoral School of Economics and
Business Administration*

Economics

		scholarship) on contest		
September 2016	5	5	5	0
September 2017	8	5	8	2
September 2018	4	2	2	0
September 2019	1	1	1	0
September 2020	4	3	6	0
TOTAL	22	16	22	2

The detailed situation of the candidates graduating from master programs from other higher education institutions in the country or abroad who registered, during the last five years, in the contest for admission to doctoral studies in the field of ECONOMICS is presented in the following table:

No.	Admission session	Candidate	Higher education institution graduated
1.	September 2017	MIHALACHE G. IULIANA - CLAUDIA	Ștefan cel Mare University, Suceava
2.	September 2017	CIUȘTEA căs. BUTNARU N. MINTENICA - MARIANA	Danubius University, Galati

In conclusion, the ratio between the number of candidates in the last five years (22) and the number of seats financed from the state budget in the field of ECONOMICS (16) is 1.38 (above the minimum value of 1.2).

2.2.1.2. Academic, research and professional performance of PhD students (B.1.2.)

Standard B.1.2. Candidates admitted to doctoral studies demonstrate academic, research and professional performance.

*Performance indicator * B.1.2.1. Admission to doctoral study programs is based on selection criteria including: previous academic, research and professional performance, their interest in scientific or arts/sports research, publications in the field and a research topic proposal. Interviewing the candidate is compulsory, as part of the admission procedure.*

*Doctoral School of Economics and
Business Administration**Economics*

The admission contest to the doctoral study programs within the Doctoral School of Economics and Business Administration, including the ECONOMICS domain, takes into account criteria related to the academic, research and professional performance of the candidates, their interest in scientific research, publications in the field, etc. At the same time, candidates have to suggest a research topic and carry out a research project based on a unitary structure at the doctoral school level. The evaluation of the research project accounts for 50% of the average in the admission contest, the remaining 50% being allocated to the interview, a mandatory component of the admission process. ([Annex 18](#))

Performance indicator *B.1.2.2. The expelling rate, including renouncement / dropping out of doctoral students 3, respectively 4, years after admission does not exceed 30%.

Analyzing the number of doctoral students enrolled in the first year and the number of those who are still enrolled in the third year, we see that the expelling rate does not exceed 30% for any of the graduate promotions analyzed, this being 0% in the case of two of them. In this context, the average of the four annual expelling rates is 8.12%, while the rate calculated for all doctoral students considered for the four cohorts analyzed is 10%, both values being lower than the upper limit of 30% provided by the standards of ARACIS.

The dynamics of the number of doctoral students is presented in the following table:

The dynamics of the number of students

Admission year	Admitted PhD students	Number of PhD students after the first year	Number of PhD students after the second year	Expelling rate
2015-2016	6	6	6	0%
2016-2017	5	5	4	20%
2017-2018	8	8	7	12.5%
2018-2019	2	2	2	0%
2019-2020	1	1	N/A	-
2020-2021	4	N/A		-
TOTAL (2015-2019)	21	21	19	10%

2.2.2. Doctoral programs content (B.2.)

Standard B.2.1. The training program based on advanced university studies is appropriate to improve doctoral students' research skills and to strengthen ethical behavior in science.

Performance indicator B.2.1.1. The training program based on advanced academic studies includes at least 3 disciplines relevant to the scientific research training of doctoral students; at least one of these disciplines is aimed to study research methodology and/or statistical data processing in-depth.

The training program curriculum for doctoral students enrolled in the ECONOMICS study domain includes at least three subjects relevant to their training in scientific research, including a subject for in-depth study of research methodology, as well as a subject aimed at statistical data processing ([Annex 7](#)):

- *Epistemology;*
- *Scientific research methodology;*
- *Research and Analysis Methods for Qualitative Data;*
- *Research and Analysis Methods for Quantitative Data;*
- *Ethics of scientific research;*
- *Academic Writing.*

Indicator B.2.1.2. At least one discipline is dedicated to Ethics and Intellectual Property in scientific research or there are well-defined topics on these subjects within a discipline taught in the doctoral program..

The training program for doctoral students enrolled in the ECONOMICS doctoral domain includes a compulsory subject entitled ETHICS AND ACADEMIC INTEGRITY, which comprises 6 hours of course and 8 hours of seminar ([Annex 7](#)). It ought to be mentioned that issues related to ethics in scientific research and intellectual property are also addressed when carrying

*Doctoral School of Economics and
Business Administration*

Economics

out teaching activities in other subjects from the curriculum, such as *Epistemology, Scientific Research Methodology, Academic Writing I, Academic Writing II*, etc.

Performance indicator B.2.1.3. The IOSUD has mechanisms to ensure that the academic training program based on advanced university studies addresses „the learning outcomes”, specifying the knowledge, skills, responsibility and autonomy that doctoral students should acquire after completing each discipline or through the research activities.

IOSUD –”Alexandru Ioan Cuza” University of Iasi has created mechanisms to ensure that the advanced university studies training program in ECONOMICS aims at " the learning outcomes", specifying the competencies, skills and attitudes that PhD students should acquire after graduating from each discipline or through research activities. For each discipline, the the course coordinator draws up a subject outline that makes specific references to the knowledge, skills, competences, responsibility and autonomy acquired by doctoral students after graduating the course, as there are evaluation mechanisms at the doctoral school level both in terms of subject outline and doctoral students’ satisfaction ([Annex 36](#)).

Performance indicator B.2.1.4. During doctoral training, PhD students in the domain receive counselling/guidance from functional guidance commissions, which is reflected in written guidance and feedback or regular meetings.

Doctoral students enrolled in doctoral studies in ECONOMICS benefit from the advice and guidance of functional guidance commissions. Within DSEBA, four reports are considered for following the path of doctoral students: an initial report at the end of year I, two progress reports (intermediate I and intermediate II) during year II and a final report (at the end of year III) . The progress reports have four distinct sections: one completed by the doctoral student, one completed by the doctoral supervisor, one completed by the members of the guidance commission (each of the three members provides separate feedback) and an administrative one.

Guidance commissions are made up of other doctoral advisors or professors with experience in the field of ECONOMICS (professor Gabriel MURSA, PhD, professor Costica MIHAI, PhD, Associate professor Claudiu TIGANAS, PhD, etc.) or researchers in the field (Researcher III Delia DIACONASU, PhD), as well as, depending on the specificity of the topics, by PhD supervisors or professors with relevant experience in INTERNATIONAL ECONOMICS AND BUSINESS (Professor Spiridon PRALEA, PhD, Professor Vasile IȘAN, PhD), CYBERNETICS AND STATISTICS (Professor Mircea GEORGESCU, PhD, Professor Mariana

Performance indicator B.2.1.5. For a doctoral study domain, the ratio between the number of doctoral students and the number of teaching staff/researchers providing doctoral guidance must not exceed 3:1.

The ratio between the number of doctoral students enrolled in the evaluated period in doctoral studies in ECONOMICS and the total number of professors/researchers who provide guidance is 1.4, lower than the ratio of 3:1 set by ARACIS standards. The calculation is performed

*Doctoral School of Economics and
Business Administration*

Economics

by taking into account the 35 PhD candidates in the ECONOMICS doctoral domain and the 25 members of the guidance commissions (according to the Central Table from **Performance indicator B.2.1.4.**)

2.2.3. The results of doctoral studies and procedures for their evaluation (B.3.)

2.2.3.1. PhD students' dissemination results (B.3.1.)

Standard B.3.1. Doctoral students capitalize on the research through presentations at scientific conferences, scientific publications, technological transfer, patents, products and service orders.

Performance indicator B.3.1.1. For the evaluated domain, the evaluation commission will be provided with at least one paper or some other relevant contribution per doctoral student who obtained the PhD title within the past 5 years. From this list, the members of the evaluation commission shall randomly select 5 such papers / relevant contributions per doctoral study domain for review. At least 3 selected papers must contain significant original contributions in the respective domain.

The PhD students in the field of ECONOMICS have constantly sought to capitalize on their research results by publishing articles, studies, books, book chapters and participating in national and international scientific events. The situation of the scientific activity of the students having obtained the PhD title in ECONOMICS in the last 5 years is presented in detail in [Annex 37](#).

In summary, this situation is presented in the table below:

The situation of the scientific activity of PhD students who obtained the PhD title in ECONOMICS in the last 5 years

Scientific articles published in Web of Science	Scientific articles published in indexed journals	Scientific articles published in BDI	Scientific articles published in conference	Scientific articles published in dictionaries and	Patents	Books/book chapters		Participations in scientific events		Awards	
						National	International	National	International	National	International

*Doctoral School of Economics and
Business Administration*

Economics

Performance indicator *B.3.1.2. The ratio between the number of presentations of doctoral students who completed their doctoral studies within the evaluated period (past 5 years), including posters, exhibitions made at prestigious international events (organized in the country or abroad) and the number of doctoral students who have completed their doctoral studies within the evaluated period (past 5 years) is at least 1.

Some of the main scientific events in which the PhD students enrolled in the Doctoral School of Economics and Business Administration in ECONOMICS, who completed their doctoral studies in the evaluated period are: 35th International Business Information Management Association Conference Organizer: IBIMA, 6th AIB –CEE Chapter Annual Conference, Kaunas University of Technology, Lithuania, SCIENVIR International Conference, „Scientific Convergence and Interdisciplinarity in EU Environmental Research”, Multidisciplinary Academic Conference on Economics, Management and Marketing, Prague, Czech Republic, International Conference GEBA – Globalization and Higher Education in Economics and Business Administration, International Conference EURINT, International Conference “Current Economic Trends in Emerging and Developing Countries” (TIMTED), International Economic Conference – IECS, etc.

The list of papers presented in renowned international events (in the country or abroad) by the PhD candidates completing their doctoral studies in the evaluated period is presented in [Annex 38](#). In total, **9 PhD students having completed their doctoral studies in the evaluated period presented, as single authors, 32 papers.** To these are added **9 presentations in collaboration with other PhD students, with members of the guidance commissions or with their PhD advisor.**

2.2.3.2. External scientific specialists (B.3.2.)

Standard B.3.2. The Doctoral School engages a significant number of external scientific specialists in the commissions for public defense of doctoral theses in the analyzed domain.

Indicator *B.3.2.1. The number of doctoral theses allocated to one specialist coming from a higher education institution, other than the evaluated IOSUD should not exceed two (2) in a year for the theses coordinated by the same doctoral thesis advisor.

*Doctoral School of Economics and
Business Administration**Economics*

Starting with the 2015-2016 academic year, within the Doctoral School of Economics and Business Administration, 10 doctoral students enrolled in the ECONOMICS study domain have completed and publicly defended their doctoral thesis. For each of the doctoral supervisors assigned to this field, the number of doctoral papers allocated to a certain scientific specialist from a higher education institution, other than "Alexandru Ioan Cuza" University of Iași, was a maximum of two for papers coordinated by the same PhD advisor ([Annex 39](#)).

PhD students coordinated by professor Ion POHOAȚĂ, PhD (3 doctoral papers)

No.	Scientific specialist	Home Institution	2015-2016	2016-2017	2017-2018	2018-2019	2019-2020	2020-2021
1.	Professor Laura-Mariana Cismaș, PhD	West University of Timișoara			1			
2.	Professor Gabriela Prelipcean, PhD	Ștefan cel Mare University, Suceava			1		1	
3.	Professor Valentin Cojanu, PhD	Bucharest University of Economic Studies				1		
4.	Associate professor Mihai Vladimir Topan, PhD	Bucharest University of Economic Studies				1		
5.	Professor Elena Nolica Druică, PhD	University of Bucharest					1	

PhD students coordinated by professor Ion IGNAT, PhD (5 doctoral papers)

No.	Scientific specialist	Home Institution	2015-2016	2016-2017	2017-2018	2018-2019	2019-2020	2020-2021
1.	Professor Laura-Mariana Cismaș, PhD	West University of Timișoara	2					
2.	Professor Elena Nolica Druică, PhD	University of Bucharest	2				1	
3.	Professor Gheorghe Ciobanu, PhD	Babeș-Bolyai University, Cluj				1		
4.	Associate professor Flavius Rovinaru, PhD	Babeș-Bolyai University, Cluj				1		
5.	Professor Cornescu, PhD	University of Bucharest					1	

*Doctoral School of Economics and
Business Administration*

Economics

6.	Professor Mihaela Luțaș, PhD	Babeș-Bolyai University, Cluj							1
7.	Associate professor Elena Dana Bako, PhD	Babeș-Bolyai University, Cluj							1

PhD students coordinated by professor Victor PLOAE, PhD (1 doctoral paper)

No.	Scientific specialist	Home Institution	2015-2016	2016-2017	2017-2018	2018-2019	2019-2020	2020-2021
1.	Professor Elena Nolica, PhD	University of Bucharest		1				
2.	Professor Dumitru Miron, PhD	Bucharest University of Economic Studies		1				

Performance indicator *B.3.2.2. *The ratio between the doctoral theses allocated to one scientific specialist coming from a higher education institution, other than the institution where the defense on the doctoral thesis is organized, and the number of doctoral theses presented in the same doctoral study domain in the doctoral school should not exceed 0.3, considering the past five years. Only those doctoral study domains in which minimum ten doctoral theses have been presented within the past five years should be analyzed.*

For the doctoral field of ECONOMICS, only nine doctoral students have obtained the title of doctor in the last five years, so this performance indicator is not relevant in this evaluation process. The centralizing situation of the participation of scientific specialists from other higher education institutions in the commissions for public defense of doctoral papers elaborated by PhD students of the Doctoral School of Economics and Business Administration enrolled in the field of ECONOMICS is presented in the following table:

No.	Scientific specialist	Home institution	Number of commissions
1	Associate professor Elena Dana Bako, PhD	Babeș-Bolyai University, Cluj	1

*Doctoral School of Economics and
Business Administration*

Economics

2	Professor Gheorghe Ciobanu, PhD	Babeș-Bolyai University, Cluj	1
3	Professor Laura-Mariana Cismaș, PhD	West University of Timișoara	3
4	Professor Valentin Cojanu, PhD	Bucharest University of Economic Studies	1
5	Professor Viorel Cornescu, PhD	University of Bucharest	1
6	Professor Elena Nolica Druică, PhD	University of Bucharest	5
7	Professor Mihaela Luțaș, PhD	Babeș-Bolyai University, Cluj	1
8	Professor Dumitru Miron, PhD	Bucharest University of Economic Studies	1
9	Professor Gabriela Prelipcean, PhD	“Ștefan cel Mare” University, Suceava	2
10	Associate professor Flavius Rovinaru, PhD	Babeș-Bolyai University, Cluj	1
11	Associate professor Mihai Vladimir Topan, PhD	Bucharest University of Economic Studies	1

2.3. QUALITY MANAGEMENT (C)

2.3.1. The Internal Quality Assurance System (C.1.)

Standard C.1.1. There are an institutional framework and procedures in place and relevant internal quality assurance policies, applied for monitoring the internal quality assurance.

Performance indicator C.1.1.1. The Doctoral school in the respective university study domain shall demonstrate the continuous development of the evaluation process and its internal quality assurance following a procedure developed and applied at the level of the IOSUD, the following assessed criteria being mandatory:

- (a) the scientific work of Doctoral advisors;*
- (b) the infrastructure and logistics necessary to carry out the research activity;*
- (c) the procedures and subsequent rules based on which doctoral studies are organized;*
- (d) the scientific activity of doctoral students;*
- (e) the training program based on advanced academic studies of doctoral students;*

*Doctoral School of Economics and
Business Administration*

Economics

f) social and academic services (including for participation at different events, publishing papers etc.) and counselling made available to doctoral students.

At the IOSUD level, [Procedura operațională privind evaluarea și monitorizarea internă a școlilor doctorale din cadrul Universității „Alexandru Ioan Cuza” din Iași](#) (The Operational Procedure regarding the evaluation and internal monitoring of the doctoral schools within the “Alexandru Ioan Cuza” University of Iași) was approved. It establishes the procedure of internal evaluation of the doctoral schools and of the domains of doctoral studies in order to accredit and periodically evaluate them according to Metodologia de evaluare a studiilor universitare de doctorat (The Methodology of Evaluation of Doctoral University Studies) elaborated in accordance with the legislation in force. The application of the procedure is materialized in the form of periodic reports made at the level of the Doctoral School.

[Regulamentul instituțional de organizare și funcționare a studiilor universitare de doctorat](#) (The Institutional Regulation for the Organization and Functioning of Doctoral University Studies) establishes internal quality assurance policies that apply to all doctoral schools at UAIC.

At the level of the Doctoral School of Economics and Business Administration, the permanent evaluation of the activity is regulated by Regulamentul de funcționare al școlii doctorale (The Regulation of Operation of the Doctoral School) and represents one of the objectives in Planul strategic al Facultății de Economie și Administrarea Afacerilor (The Strategic Plan of the Faculty of Economics and Business Administration).

Performance indicator *C.1.1.2. Mechanisms are implemented during the stage of the doctoral study program to enable feedback from doctoral students allowing to identify their needs, as well as their overall level of satisfaction with the doctoral study program in order to ensure continuous improvement of the academic and administrative processes. Following the analysis of the results, there is evidence that an action plan was drafted and implemented.

At the level of the Doctoral School of Economics and Business Administration, the *Questionnaire for Assessing the Quality of Doctoral Studies* is administered annually. The conclusions drawn from this mechanism for collecting feedback from doctoral students are mentioned in the report devised by the internal commission for evaluating the activity of the doctoral school:

- The doctoral students from the Doctoral School of Economics and Business Administration deem the activity of the doctoral school as very good, being satisfied with

*Doctoral School of Economics and
Business Administration*

Economics

the collaboration with the doctoral advisors and the members of the guidance commission, as well as with the administrative staff.

- The frequency of meetings with the doctoral advisor is about 2 meetings per week and when necessary.

- The doctoral students have presented some suggestions for the continuous improvement of the academic and administrative activity, among which we mention: the organization of optional courses, the extension of the existing book fund, the opening of a dialogue with other doctoral schools within IOSUD-UAIC and beyond etc.

The report of the internal evaluation commission contains a series of recommendations that are transposed in the action plan proposed within the strategies and procedures implemented at the level of the Doctoral School of Economics and Business Administration as measures to continuously improve, beyond the minimum standards, the quality of the ECONOMICS doctoral study program.

Specifically, the DSEBA Report for the 2012-2017 period ([Annex 5](#)) includes the results of an analysis conducted between March-April 2017 on 31 graduates (31 valid answers out of the 33 received). It was carried out by distributing a questionnaire in order to obtain feedback from doctoral students on the quality of the doctoral process and the quality of doctoral guidance, as follows:

- doctoral student's decision to enroll in the DSEBA study program - alternative to plan "0";
- quality of the program - according to expectations, with too much emphasis on other activities;
- research environment - more competitive than collaborative;
- pressure to work - stress and loneliness;
- final customer satisfaction - grade 4/5;
- quality of doctoral guidance – normal, with emphasis on autonomy and independence of the doctoral student.

2.3.2. Transparency of Information and Accessibility of Learning Resources (C.2.)

2.3.2.1. Availability of information of public interest (C.2.1.)

Standard C.2.1. Information of interest to doctoral students, future candidates and public interest information is available for electronic format consultation.

*Doctoral School of Economics and
Business Administration*

Economics

Performance indicator C.2.1.1. The IOSUD publishes on the website of the organizing institution, in compliance with the general regulations on data protection, information such as:

- (a) the Doctoral School regulation;***
- (b) the admission regulation;***
- (c) the doctoral studies contract;***
- (d) the study completion regulation including the procedure for the public presentation of the thesis;***
- (e) the content of training program based on advanced academic studies;***
- (f) the academic and scientific profile, thematic areas/research themes of the Doctoral advisors within the domain, as well as their institutional contact data;***
- (g) the list of doctoral students within the domain with necessary information (year of registration; advisor);***
- (h) information on the standards for developing the doctoral thesis;***
- (i) links to the doctoral theses' summaries to be publicly presented and the date, time, place where they will be presented; this information will be communicated at least twenty days before the presentation.***

Information of interest to doctoral students and information of public interest is available for consultation on the [Universității](#) (University's) website and on the *Doctoral School* website. This information concerns: the doctoral school regulations; admission regulations; doctoral studies contract; the regulations for completing the studies, including the procedure for the public defense of the thesis; the content of study programs; the scientific profile and thematic areas / research themes of the doctoral advisors within the domain, as well as their institutional contact data; list of doctoral students within the domain with basic information (year of registration; advisor); information about the standards for the elaboration of the doctoral thesis.

The website of the *Doctoral School of Economics and Business Administration* is doctorat.feaa.uaic.ro. The section presenting doctoral studies includes information on:

- the regulation regarding the activity of doctoral studies at the level of the doctoral school;
- the list of active members of the doctoral school with the contact details and the research field of interest;
- the minimum standards for obtaining the enabling certificate;
- the content of the advanced university training program.

The second section contains information on admission to doctoral studies:

- the admission methodology, elaborated annually;
- the topics for admission;
- the manner of conducting the admission exam;

*Doctoral School of Economics and
Business Administration*

Economics

- information on the admission contest schedule, fees, number of seats and the content of the file.

The Doctoral School's website also includes *sections for announcements* regarding the presentation of research reports, which is public according to the school's regulations, and of doctoral theses.

"Alexandru Ioan Cuza" University of Iasi offers doctoral students the opportunity to access the following databases: Science Direct Freedom Collection, Scopus, SciFinder (CAS), MathSciNet, etc., while through the Central University Library "Mihai Eminescu" in Iasi, they also have access to other representative databases, such as: SpringerLink Journals, ProQuest Central, Emerald Journals, Science Journals, Thompson Reuters, Oxford Journals, SAGE Journals HHS Collection, EBSCO, Wiley Journals etc.

Students and academics have free access to the most important online scientific documentation resources worldwide, including: Clarivate Analytics (Web of Science + Derwent Innovation + Journal Citation Report), Science Direct, SCOPUS, MatSciNet, SciFinder, ScienceDirect National Archives, ScinceDirect. Free access is allowed as a result of UAIC's participation as a contributing member in the project "Electronic National Access to Scientific Literature to Support the Research and Education System in ROMANIA - ANELIS PLUS 2020" (ANELIS PLUS 2020 - 2017 Contract Annex).

The university ensures through its own resources, financial and scientific expertise, the publication of 56 scientific journals, most of them published annually (<http://www.uaic.ro/cercetare/publicatii-stiintifice/>).

Since 2006, within IOSUD-UAIC, a special module has been used to verify the percentage of similarity for the works developed by students from all three cycles of university studies (bachelor, master, doctorate) within the Blackboard - *SafeAssign* e-learning platform, the "Alexandru Ioan Cuza" University of Iasi being among the first higher education institutions in Romania to invest in this direction and the only public university to purchase this e-learning platform ([Annex 27](#)).

Licenses to use this application have been extended annually by successive procurement contracts ([Annex 28](#)). In 2018, with the decision to adopt another technical solution based on Moodle to provide the e-learning platform to distance- and part-time learning students, the *Turnitin* application was purchased ([Annex 29](#)). Thus, access is ensured for all professors, including doctoral advisors, at the "Alexandru Ioan Cuza" University of Iasi, as well as for doctoral students (with the consent of their doctoral advisor) to an electronic system which can be used to verify the degree of similarity with other existing scientific or artistic creations.

*Doctoral School of Economics and
Business Administration*

Economics

2.3.2.2. Access to the resources necessary to carry out doctoral studies (C.2.2.)

Standard C.2.2. The IOSUD/The Doctoral School provides doctoral students with access to the resources needed for conducting doctoral studies.

Performance indicator C.2.2.1. All doctoral students have free access to one platform providing academic databases relevant to the doctoral studies domain of their thesis.

"Alexandru Ioan Cuza" University of Iasi offers doctoral students the opportunity to access the following databases: Science Direct Freedom Collection, Scopus, SciFinder (CAS), MathSciNet, etc., while through the "Mihai Eminescu" Central University Library in Iasi they also have access to other representative databases, such as: SpringerLink Journals, ProQuest Central, Emerald Journals, Science Journals, Thompson Reuters, Oxford Journals, SAGE Journals HHS Collection, EBSCO, Wiley Journals etc.

Performance indicator C.2.2.2. Each doctoral student shall have access, upon request, to an electronic system for verifying the degree of similarity with other existing scientific or artistic works.

IOSUD –“Alexandru Ioan Cuza” University of Iași has shown a continuous concern for ensuring the necessary resources to verify the percentage of similarity for the works developed by students from all three cycles of university studies, including those of doctoral theses ([Annex 27](#)). Thus, since 2006, at IOSUD-UAIC, the special module for this functionality has been used within the e-learning platform Blackboard - *SafeAssign*, the “Alexandru Ioan Cuza” University of Iași being among the first higher education institutions in Romania investing in this direction and the only public university that purchased this e-learning platform.

The necessary licenses to use this application have been extended annually, through successive procurement contracts ([Annex 28](#)), so in 2018, with the decision to adopt another technical solution based on Moodle to provide the e-learning platform to distance- and part-time learning students, the *Turnitin* application was purchased ([Annex 29](#)). Thus, access is ensured for all professors, including doctoral advisors, at the “Alexandru Ioan Cuza” University of Iași, as well as for doctoral students (with the consent of their doctoral advisor) to an electronic system which can be used to verify the degree of similarity with other existing scientific or artistic creations.

Performance indicator C.2.2.3. All doctoral students have access to scientific research laboratories or other facilities depending on the specific domain/domains within the Doctoral School, according to internal order procedures.

*Doctoral School of Economics and
Business Administration*

Economics

All doctoral students enrolled in the ECONOMICS doctoral program have access to the research infrastructure available within IOSUD - Alexandru Ioan Cuza University of Iasi, this being one of the rights of the doctoral student, as they are formulated in art. 16 of *Regulamentul instituțional de organizare și funcționare a studiilor universitare de doctorat* (The *Institutional Regulation for the organization and functioning of doctoral studies*), which stipulates that during the doctoral studies, the doctoral student has the right ... (d) to benefit from the logistics, documentation centers, libraries and equipment of the University for the elaboration of research projects and doctoral thesis. For DSEBA laboratories and the research infrastructure available to its doctoral students in general, there is an appropriate access and conduct regulation displayed in each room.

2.3.3. Degree of Internationalization (C.3.)

Standard C.3.1. There is a strategy in place and it is applied to enhance the internationalization of doctoral studies.

Performance indicator *C.3.1.1.IOSUD, for every evaluated domain, has concluded mobility agreements with universities abroad, with research institutes, with companies working in the field of study, aimed at the mobility of doctoral students and academic staff (e.g., ERASMUS agreements for the doctoral studies). At least 35% of the doctoral students have completed a training course abroad or other mobility forms such as attending international scientific conferences. IOSUD drafts and applies policies and measures aiming at increasing the number of doctoral students participating at mobility periods abroad, up to at least 20%, which is the target at the level of the European Higher Education Area.

In the process of internationalization of studies, the "Alexandru Ioan Cuza" University of Iasi concluded [845 agreements](#) with 386 universities in 31 European countries. Since 2015, [68 inter-institutional collaboration agreements](#) have been concluded with universities and research institutions. Based on these agreements, doctoral supervisors and doctoral students of doctoral schools within IOSUD-UAIC can benefit from teaching, study and practice mobilities.

The Doctoral School of Economics and Business Administration has concluded mobility agreements with 25 universities abroad ([Annex 40](#)), which offers doctoral students the opportunity to develop their professional skills and scientific research, as well as the international dimension of doctoral studies.

*Doctoral School of Economics and
Business Administration*

Economics

During the reporting period (2016-2020), the following doctoral students of the Doctoral School of Economics and Business Administration carried out study mobilities within the Erasmus Program:

No.	PhD Student	University	Country
1.	Crivoi Lucian	Albert-Ludwigs-Universitat Freiburg	Germany
2.	Țăran Alina	Izmir University of Economics	Turkey
3.	Muntean căs. Jemna Ligia	Universita degli Studi di Perugia	Italy
4.	Panaite Nicoleta	Université d'Orleans	France
5.	Pintilie Nicoleta-Livia	Universite d'Orleans	France
6.	Sprincean Nicu	University of Konstanz	Germany
7.	Androniciuc Andra-Ioana	Universidad de Alicante	Spain
8.	Ionașcu Elena	Universidad de Alicante	Spain
9.	Velicu Valerii	Université d'Auvergne Clermont 1	France
10.	Băluțel Daniela	Universite d'Orleans	France
11.	Ilieș Aurelia	Universite d'Orleans	France

During the reporting period (2016-2020), the following doctoral students of the Doctoral School of Economics and Business Administration carried out internship mobilities within the Erasmus Program:

No.	PhD Student	University	Country
1.	Țăran Alina	Izmir University of Economics	Turkey
2.	Androniciuc Andra	Universidade Nova de Lisboa	Portugal
3.	Țăran Alina	Metanil Metal Isitma, Istanbul	Turkey
4.	Cărbune A. Anatolie	European Association of Development Agencies, Brussels	Belgium

Mention should also be made of the participation of doctoral students in the ECONOMICS doctoral domain at conferences and other international scientific events held abroad. A selection for the period under evaluation is presented below:

- Tudor Mugurel Aursulesei - *35th International Business Information Management Association Conference IBIMA*, Seville, April 1-2, 2020.

- Tudor Mugurel Aursulesei - *6th AIB-CEE Chapter Annual Conference „International Business in the Dynamic Environment: Changes in digitalization, Innovation and Entrepreneurship*, Kaunas University of Technology, Lithuania, 25-27 September 2019.

*Doctoral School of Economics and
Business Administration**Economics*

- Ștefan Cătălin Topliceanu - *6th AIB-CEE Chapter Annual Conference „International Business in the Dynamic Environment: Changes in digitalization, Innovation and Entrepreneurship*, Kaunas University of Technology, Lithuania, 25-27 September 2019.
- Irina Ionescu Irina - *2nd International Conference of Development & Economy*, June 9-12, 2016, Technological Educational Institute of Peloponnese, Thessaloniki, Greece.
- Paula Alexandra Roibu (married Crucianu) - *ICMHM International Conference 16- Redefining Community in Intercultural Context*, 7-9 June 2016, Nova de Lisboa University - Faculty of Social Sciences and Humanities, Lisbon.
- Paula Alexandra Roibu (married Crucianu) - *ICMHM International Conference 16- Redefining Community in Intercultural Context*, 5-6 June 2017, Aldo Mori University, Bari, Italy.

Performance indicator C.3.1.2. In the evaluated doctoral study domain, support is granted, including financial support, to the organization of doctoral studies in international co-tutelage or invitation of leading experts to deliver courses/lectures for doctoral students.

Within the Doctoral School of Economics and Business Administration, in general, and in the field of ECONOMICS doctoral studies, in particular, there is a constant concern which is supported, including financially, for the organization of international co-tutelage doctorates and for inviting first rank experts to deliver courses / lectures to doctoral students.

A selection of the main personalities who have delivered courses or lectures, including doctoral students in the ECONOMICS domain within the Doctoral School of Economics and Business Administration, is presented in the following table:

Name and title	Home Country	Home University	Year
Prof. Helder Sebastião	Portugal	University of Coimbra	2020
Prof. Alexandru Minea	France	University of Clermont Auvergne	2019
Prof. Marcel Voia	France	University of Orléans	2019
Prof. Anup Srivastava	Canada	University of Calgary	2019
Prof. Luminita Enache	Canada	University of Calgary	2019
Prof. Sławomir Śmiech	Poland	Cracow University of Economics	2019
Prof. Marek A. Dąbrowski	Poland	Cracow University of Economics	2019
Prof. Luis Palma Martos	Spain	Universidad de Sevilla	2018
Prof. Ion Lapteacru	France	Université de Bordeaux	2018

Business Administration*

Economics

Prof. Radu Tunaru	UK	University of Kent	2018
Prof. Marta C. N. Simões	Portugal	University of Coimbra	2018
Prof. Michel Rod	Canada	Carleton	2018
Prof. Peter Nijkamp	The Netherlands	Vrije Universiteit Amsterdam	2018
Prof. Adelaide Duarte	Portugal	University of Coimbra	2018
Prof. Francisco Santo dos Guedes	Norway	Norwegian School of economics	2016
Prof. Albert Lee Chun	Australia	University of Queensland	2016

Performance indicator C.3.1.3. The internationalization of activities carried out during the doctoral studies is supported by IOSUD through concrete measures (e.g., by participating in educational fairs to attract international doctoral students; by including international experts in guidance committees or doctoral committees etc.).

During the evaluated period, both at the level of IOSUD - “Alexandru Ioan Cuza” University of Iași, and within the Doctoral School of Economics and Business Administration, efforts were made and concrete measures were taken to internationalize the activities within the doctoral studies. Thus, Prof. Elio BORGONOVİ, PhD, from Bocconi University, Italy was co-opted in the Doctoral School Council, as numerous conferences and scientific events with a very important international presence were organized during the evaluated period.

Moreover, at the Doctoral School of Economics and Business Administration and the Faculty of Economics and Business Administration levels, conferences and other scientific events which support the internationalization of doctoral studies in ECONOMICS (for example, the Globalization and Higher Education in Economics and Business Administration series of international conferences) are organized regularly.

Since 2017, Professor Adriana Zaiț, Director of DSEBA, has participated in the regular meetings of the Doctoral Studies Group within the Coimbra Network, of which UAIC is part, the information obtained being disseminated and used to improve DSEBA's internationalization strategies.

*Doctoral School of Economics and
Business Administration*

Economics

3. STRATEGIES AND PROCEDURES IMPLEMENTED AT THE UNIVERSITY DOCTORAL STUDIES LEVEL, AS MEASURES TO CONTINUOUSLY IMPROVE THE QUALITY OF DOCTORAL PROGRAMS

The permanent evaluation of the activity within the Doctoral School of Economics and Business Administration is regulated by Regulamentul de funcționare a școlii doctorale (The Regulation of Operation of the Doctoral School) and represents one of the objectives stipulated in Planul strategic al Facultății de Economie și Administrarea Afacerilor (The Strategic Plan of the Faculty of Economics and Business Administration).

DSEBA and the ECONOMICS doctoral domain aim at a positive and balanced long-term development, raising interest towards high quality doctoral research, both on the part of the candidates for enabling and of doctoral students, as well as the coordinators and representatives of the economic and social environment.

The strategies and procedures implemented at the level of the Doctoral School of Economics and Business Administration, as measures to continuously improve the quality of the ECONOMICS doctoral study program, are:

- For better training of doctoral students, the curriculum has been adjusted, significantly increasing the share of optional disciplines in all areas of specialization of the DSEBA. Although there are difficulties in managing the multiple study routes, the gains from interdisciplinary training are higher in the long run and are worth the effort.

- DSEBA scientific seminars and workshops have been uninterruptedly organised since their introduction at the establishment of the doctoral school, with the participation of professors and researchers from abroad (France, Canada, The Netherlands, Germany, Poland, etc.).

- During the pandemic, PhD students participated online in a whole series of webinars, organized at universities in the country and abroad by E-nformartion, WOS-Clarivate, EUA, Coimbra Group.

- Since 2010, DSEBA has been using software to verify the authenticity of all doctoral students' work. All types of papers are verified using the Turnitin platform: conference materials supported by doctoral grants, progress reports throughout the doctoral process and the final thesis developed by each doctoral student.

- Efforts to improve the quality of coordination activities are encouraged and supported - for doctoral advisors and members of guidance committees. The FEAA covers 500 euros' worth of training or participation fees at specialized conferences per academic year for each professor.

Short- and medium-term goals include:

*Doctoral School of Economics and
Business Administration*

Economics

- Encouraging doctoral students to continue publishing in indexed journals coordinated by DSEBA (REBS indexed in various BDI – international databases) or FEAA (SAEB - indexed in ESCI), but also to focus on other well-indexed journals from abroad, for a more significant increase in visibility of doctoral students' research
- Attracting MA students to join doctoral research teams, in order to increase the interest in doctoral studies, on the one hand, and to ensure an earlier start of research (during master's studies), on the other hand, allowing a better and faster evolution of research during the doctoral program
- Encouraging coordinators to publish more in Western indexed journals, according to the same idea of increasing visibility, and to provide viable models for doctoral students (without neglecting the development of Romanian or Eastern European indexed publications, since collaboration with and integration in the scientific landscape specific to the Eastern European cultural area are important for perfecting the identity of Romanian doctoral programs)
- Developing and providing training modules in English, to attract a larger number of doctoral students from abroad
- Encouraging multi- and interdisciplinary research (the first steps have already been taken by increasing the number of optional courses, including those from other UAIC faculties, and by participating in joint events); we intend to organize joint doctoral seminars and workshops in the fields of social sciences: Economics and Business Administration, Psychology, Sociology, etc. – made possible through the involvement of IOSUD and the support of a strategy to increase interdisciplinarity within the UAIC.

The medium- and long-term objectives aim at:

- The inclusion of additional modules for the development of transversal skills and “soft” competencies in the DSEBA curricula, in order to better prepare doctoral students for multiple careers, inside and especially outside the academic environment, following their doctoral and post-doctoral studies, starting from the findings in the latest studies in the field of reducing the precariousness of researchers' careers (see [OECD Report - Reducing the precarity of academic research careers](#), May 2021)
- The rethinking of the programs and, implicitly, the doctoral research careers in the field of Economics and Business Administration, moving away from the emphasis on rankings, competition and strictly quantitative metrics towards collaboration for transdisciplinary research projects (by combining basic and applied research with the participation of broader interest groups –the business sector, community and citizen organizations, decision makers at administrative and political levels etc.), taking into consideration the qualitative aspects and the societal impact in

Business Administration*

Economics

academic evaluations (an example is the OUTDOC project in which doctoral and postdoctoral researchers of DSEBA were involved; we, however, would like an increase in such initiatives)

- Consulting with the Ministry of Education (ME), the Executive Unit for the Financing of Higher Education, Research, Development and Innovation (UEFISCDI) and the National Council for Attestation of University Degrees, Diplomas and Certificates (CNATDCU) for the rethinking of the evaluation criteria and the manner of conducting doctoral reports and theses in view of true encouragement of interdisciplinary collaborations, alongside the inclusion and diversity strategies (the pandemic has showed that the quality and flexibility objectives in assessing the evolution and evaluations of the doctoral progress can be ensured at the same time, allowing for a better participation of foreign doctoral students, representatives of minorities or female doctoral researchers, more strongly affected in times of crisis)

- Initiating debates and consultation sessions (among universities, ministries, other specialized institutions) aimed at the recognition of previous professional experience and research skills acquired in practice in the process of recruiting doctoral students. Similarly, we would like to apply the principles of flexible trajectories and micro-credentials to the whole academic course - including for doctoral students (see, for example, the recommendations of the EUA Council of Doctoral Education and The Magna Charta Observatory, in collaboration with the European University Association - 'European Universities 2030: Vision and Values <https://www.eua.eu/downloads/publications/universities%20without%20walls%20%20a%20vision%20for%202030.pdf>) ; the new Magna Charta Universitatum MCU 2020

- Continuing the efforts to internationalize doctoral education, made possible through the collaboration of universities, the Ministry of Education and specific coordination and evaluation bodies, for easier recognition of previous diplomas and different educational backgrounds, as well as for greater flexibility of research programs (see the discussions at DSWG level - Coimbra Doctoral Working Group, YEBO! projects and the SASUF conference organized within the Yebo! project, with the “Ethics of Research in the Digital Age” and Supervision of PhD Studies in the Digital Age and Covid-19 Era” debates; the joint working meeting of the DSWG and the Research Support Officer Group, in association with NUI Galway, which addressed topics related to recent developments in the European Research Area, including Research & Innovation Days, issues related to HR Excellence in Research Award (UAIC has attained this recognition - 56% of universities that have participated in the survey have this accreditation, 9% are under analysis and 35% do not have it); debates have also been organized on the topics of personal development of researchers and the researcher profession). A better exploitation of the potential of universities within the ERA is desired, with proposals aiming at: the modernization of universities in terms of education (a collaboration between the European Education Area - EEA and the European Research Area - ERA), research-development and missions to serve the interests of society, the adoption of a toolkit to facilitate cross-border collaborations, an appropriate investment strategy

Economics

and the protection of academic freedom. Researchers aim at the diversification of careers, a better evaluation of results (research assessment) and a tenure-track system, all to increase the attractiveness of a career in research and the researcher profession.

- The harmonization, as far as possible, of doctoral education in Economics and Business Administration with the principles of AACSB (the institution for evaluation and accreditation at international level for business schools in general, including doctoral education); the analyzes carried out show that the field of doctoral education remains rigid all over the world, with barriers to innovation arising mainly from the inherent traditions of the field, with dominant patterns maintained by inflexible reward structures and rigid accreditation and ranking standards. We would like to see more flexible standards with a view to developing professional doctoral programs in business, with clear principles of recognized applied research quality, for an increase in the number of doctoral students outside the academic sphere and a better application of research results in practice. We intend to initiate debates on topics related to the admission of doctoral students who do not aim at academic or basic research careers (an “executive” type of doctorate, for example), the acceptance of different thesis formats (such as monographs, which we have at present, or the “three papers” type - relevant articles published in indexed journals), the adaptation of doctoral programs to new generations of students, including the “mature” students, “consortium” type courses, with a higher degree of interdisciplinarity and flexibility, increased digitalization and a larger online offer, which is possible in the field of Economics.

- Initiating the procedures for the recognition of doctoral courses in a modular system, with distinct recognition (without the obligation to complete the entire doctoral program, based on the model of certified or micro-credential courses)

- Continuing the efforts to apply the Salzburg principles in real life (excellence in research, an attractive institutional environment, options for an interdisciplinary path that would allow greater mobility of doctoral students between programs in different fields, greater exposure to the economic environment and different sectors other than the academia, building international networks, providing more educational opportunities in the field of transferable skills, more complex quality assessment).
