Professional Experience

Since 11/2020 **Regional Coordinator East Africa at Handwerkskammer Koblenz, Kampala, Uganda**

Team Leader and Coordinator of a Regional TVET Project between the Chamber of Skilled Crafts (CSC) Koblenz, East African TVET schools, the organized private sector and other partners. The focus is on the implementation of workplace learning as well as on the exchange of experiences and best practices between the participating countries with focus on TVET and private sector development.

My responsibilities include:

- Planning, management and supervision of the country programme,
- Aligning programme activities with the national guidelines,
- Implementation of project objectives within the logical framework,
- Management and representation of CSC Koblenz in Rwanda,
- Planning, monitoring and reporting of the project,
- Identification and selection of partners and coordination of activities.

- 12/2014 – 10/2020 **Country Director at Handwerkskammer Koblenz, Kigali, Rwanda**
 Team Leader and Coordinator of a TVET Project between the Chamber of Skilled Crafts (CSC) Koblenz, Rwandan TVET schools, the organized private sector and other partners.
- 05/2014 – 11/2014 **Master Thesis at World Health Organization (WHO), Kigali, Rwanda**
Development of a concept for private sector involvement in rural water supply.
 In my Master Thesis, I developed a concept for the use of PPPs in the rural water supply of Rwanda. This included a logical framework with concrete activities and indicators as well as recommendations regarding PPP form and tariffs.
- 10/2010 – 04/2014 **Demand Manager at Siemens, Erlangen, Germany**
Process & application consulting – Customer Service / Material Management.
 My tasks include analysis of the processes, requirements & objectives, feasibility studies, writing functional and technical specifications, planning / initiation of projects & staff coordination, development / planning of new processes & tools, arrangement & execution of workshops, regularly jour fixes with the departments to identify new / changed IT requirements.
- 01/2009 – 09/2010 **Business Consultant at BearingPoint, Munich, Germany**
Process & application consulting – Product Lifecycle Management.
 My tasks included analysis of the processes, requirements & objectives, feasibility studies, writing functional and technical specifications, planning / initiation of projects & staff coordination, development / planning of new processes & tools, arrangement & execution of workshops, regularly jour fixes with the departments to identify new / changed IT requirements.
- 04/2007 – 12/2008 **Consultant at evosoft, Nuremberg, Germany**
Process & application consulting – Product Lifecycle Management.
 My tasks included analysis of the processes, requirements & objectives, feasibility studies, writing functional and technical specifications, planning / initiation of projects & staff coordination, development / planning of new processes & tools, arrangement & execution of workshops, regularly jour fixes with the departments to identify new / changed IT requirements.
- 11/2005 – 06/2006 **Project Manager at CoreOptics, Nuremberg, Germany**
Implementation of an ERP system.
 My tasks included installation of the new system & replacement of the old system, conception of a new master data model & data migration, process redesign, configuration of the new system (customizing, adaption of reports, programming), operation.

Volunteer Experience

- Since 02/2013 **Active member of Ingenieure ohne Grenzen e. V., Nuremberg, Germany**
Working on development projects.
 Ingenieure ohne Grenzen is a nonprofit organization that deals with the

solution of technical engineering tasks in developing countries. Ingenieure ohne Grenzen is a member of the International Network of Engineers without Borders.

My tasks include:

- Fundraising, PR and event management,
- Project leadership: Water treatment at an orphanage in Ethiopia,
- Project participation: Installation of solar panels at a school in Benin.
